**REGULAR BAPTISTS**  
Rev. J. W. MacDonald, Minister.

In the Union hall, Services Sundays:  
11 a.m., Senior and Junior Sunday school.

7.30 p.m., Song service; 7.45, evening worship.  
Thursday, 7.30 p.m., Prayer and Bible study.

Service in Frank 2 p.m. Sundays.  
You are cordially invited to our services.

**SALVATION ARMY, COLEMAN**  
Capt. F. Watson - Lieut. G. Fitch

**Sunday services:**  
10.30 a.m., Y.P. Directory Class.  
11.00 a.m., Holiness Meeting.  
3.00 p.m., Sunday School.  
7.30 p.m., Salvation Meeting.  
Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Praise Meeting.  
Weddings, funerals and dedications on application to the local officers.

Mr. and Mrs. Fred Gilroy have been visiting with friends in the Creston district during the week.

## NELSON-GUSHUL NUPTIALS

A quiet but very pretty wedding took place at the United church in Coleman on Saturday evening, when Paraska, second eldest daughter of Mr. and Mrs. Thomas Gushul, of Blaimore, became the bride of John William Nelson, son of Mr. and Mrs. Walter Nelson, of Coleman. The Rev. J. E. Kirk officiated at the ceremony, which was attended by the immediate relatives of the contracting parties and a few invited friends.

The bride, who was attended by her sister, Pollyann Gushul, and a school chum, Anne Margatak, of Blaimore, looked very charming in a floor-length gown of silk chiffon over celanese taffeta, princess style, with veil and train and matching accessories. Her bridal bouquet consisted of Madam Butterfly and Hollywood roses. Kenneth Snowden and Frank Alampi, of Coleman, acted as groomsmen.

Immediately after the ceremony, the happy young couple visited Mrs. Nelson, the groom's mother, a patient in the Coleman hospital, and the bride presented her with the bridal bouquet. In the evening a reception was held at the home of the bride's parents in Blaimore, after which the happy young couple left on a honeymoon trip to Calgary and other Alberta points, and upon their return will take up residence in Coleman, where the groom is employed by the McGillivray Creek Coal & Coke Co.

Mr. and Mrs. H. Carmichael had as their guests for a few days Mr. Carmichael's mother and sister, Mrs. J. Carmichael and Mrs. W. R. Howson, of Edmonton.

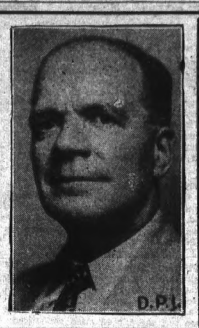

Anther imported specialist in being offered \$10,000 a year of Alberta's gunnysacked people's funds. It may be safe to wager that it's double his average annual income in the U. S. A.

Ranger Kovach, who phoned the R. C. M. P., that he had located two Nazi interment escapes near Kananaskis Lake, was formerly ranger at Castlemount Station on Carbondale River.

**CHURCH OF THE NAZARENE**  
Near the Depot, Coleman

**Sunday school at 11 a.m.**  
Morning worship at 12 noon. Street meeting at 6.30 p.m., in front of the Coleman hotel. Evangelistic service at 7.30 p.m.

Tuesday, 7.30 p.m., Bible study.  
Friday, 7.30 p.m., Prayer meeting.

W. BARNACAL, M.E.C.

Production engineer of the department of munitions and supply, who has just been appointed general manager of Sorel Industries Limited, recently organized to carry out an extensive armament programme. Mr. Barnacal served in France throughout the last war with the Royal Field Artillery and the Intelligence Service. Later he was appointed chief engineer of the Manitoba Bridge and Iron Works, and then became manager of the mining division of the Dominion Bridge Co.

## SCHOOL PATROLS

### GO INTO SERVICE

With the re-opening of schools for the fall term, branches of the Alberta Motor Association have resumed their sponsorship of school-boy patrols.

At Edmonton, 17 public schools now have these patrols in operation. Four boys are selected at each school to act as patrols in guiding and directing their younger playmates to safety across busy intersections near the school.

So satisfactory have been the results from this service since it was established in Edmonton two years ago, there has not been a motor accident involving a child going to or coming from school.

A similar patrol service also is operated at Calgary under the auspices of the branch there of the A.M.A.

The Calgary branch also sponsors Sportsmanlike Driving courses which are provided in five of the city's junior high schools. In these courses, students are given instructions in the principles of safe driving.

Through these measures in various centres, the A.M.A. is carrying on the drive to reduce accidents in Alberta and make the highways safer for the driving public.

Officers of the new Lions Club at Coleman are: Dr. C. Rose, president; Dr. H. G. Claxton, first vice-president; Rev. J. E. Kirk, second vice-president; Percy Dickinson, secretary-treasurer; Del. Harding, lion tamer; Jack Jackson, tall twister; R. R. Pattinson and A. Haysom, long-term directors; Fred Guerdard and Ray Spillers, short-term directors; J. M. Chalmers, chairman of programme and banquet committee; Alex. Balloch, chairman of membership committee; H. H. Gardner, chairman rules committee. Meetings will be held the second and fourth Tuesday of each month.

The chemical division of the Harris-Seybold-Potter Co., of Cleveland, Ohio, notified Evan Gushul, of the Gushul Studio, Blaimore, on Wednesday that his entry had been selected as winner of 2nd prize in their recent nation-wide (Canada and U. S. A.) dealers' "get-acquainted" contest. Using this company's special fine grain developer, contestants were required to make enlargements of extreme magnitude, retaining the definition and tone of original negative. Evan made an enlargement of 35 diameters with home-made camera and enlarging machine. Out of 9,000 entries, he was the only Canadian winner in the finalists.

## LETHBRIDGE S.A. BAND TO VISIT THE PASS

An announcement of interest to all is the forthcoming visit of the Lethbridge Salvation Army Band to the Crow's Nest Pass, scheduled for the Thanksgiving week end, October 12th to 14th.

While the final plans are not yet made public, the local officers assure us that a very attractive programme is being arranged for the three days. Further details will be announced in subsequent issues of this paper. Keep these dates open—Oct. 12-13-14.

## LEGION APPEALS TO PUBLIC FOR OLD MAGAZINES

An appeal for magazines for distribution among Canadian forces at home and overseas is being made by the Canadian Legion War Services. Legion supervisors in all military camps throughout the Dominion, as well as those in Great Britain, report a dearth of this type of reading matter. They point out that national magazines of all kinds, especially those well illustrated, are greatly enjoyed by the men after their long hours of intensive training. Troops in England are particularly interested in Canadian periodicals, because it helps them to keep in touch with their home attachments.

All possible assistance from the public is urged by the Legion, which announces that magazines may be turned over to any Legion branch for packing and shipment to C. L. W. S. headquarters at Ottawa. Magazines not more than two months old are preferred. French language periodicals will also be appreciated for distribution to French-Canadian troops at home or abroad.

## APPRECIATION OF THE GLORY OF OUR MOUNTAIN SCENERY

During the recent visit of the Vancouver Junior Board of Trade to Jasper, a most charming incident took place in one of the cottages just before luncheon time, when Mrs. Haymer-Jackson, well known Canadian newspaperwoman, author and lecturer, on behalf of the ladies of the Vancouver party, presented gifts to three of the executive members of the party. In making the presentation, Mrs. Haymer-Jackson spoke of the deep appreciation felt by the lady members of the party in being privileged to enjoy such a revelation of nature's beauty. "It has been a privilege to see this wonderful scenery which has been gradually unfolded before our eyes, and to worship at the shrine of nature. The trip from Vancouver to Jasper, delightful all the way as it was, was crowned with glory as we came to rest in this beautiful mountain resort. These mountains are symbolic of the greatness of England, and remind us of the strength of our Empire as Britishers to hold back the hordes of Germany and fight to vindicate grief-stricken France. You, the members of the Junior Board of Trade, are the leaders of tomorrow. Learn to assume your responsibilities, and at the same time, while you are young, have a good time, sing, laugh and enjoy yourselves; but remember to make Canada a great country worthy of the place she is destined to occupy."

## ALBERTA GOVERNMENT SUSPENDS PRIORITIES

By order-in-council the Alberta government has decided to suspend the priority of certain debt claims or liens against the first five bushels of wheat per acre of farmers' wheat crops, for as much more as is necessary, and to enable the farmers to meet harvesting bills. The order was passed on Wednesday. For being drunk and disorderly, a Coleman guy was fined \$5 in Calgary.

## BELLEVUE HAPPENINGS

Mrs. H. Barlass returned recently from an extended holiday visit to Vancouver.

Mrs. J. Delaine and son, of Edmonton, are spending a couple of weeks visiting her sister-in-law and brother, Mr. and Mrs. H. Eccleston.

Miss Hilda Sirett was pleasantly surprised on Monday evening when a number of her friends gathered at a handkerchief shower in her honor. The evening was spent playing bingo. A very dainty luncheon was served, following which Mrs. G. Key, on behalf of those present, presented the guest of honor with a trayful of beautiful hankies, for which she thanked them. The remainder of the evening was spent in a sing-song, the party breaking up about midnight with the singing of "Auld Lang Syne" and "For She's a Jolly Good Fellow." Miss Sirett left on Tuesday afternoon for Ottawa, where she has accepted a position with the R.C.M.P. With her go many wishes for every success from her friends in Bellevue. Miss Sirett received her education in the local school, and after graduating from high school took a two-year course at Henderson's Business College. Since her return here, she has been employed in the office of the Wolstenholme Lumber Co. She is second daughter of Mr. and Mrs. G. K. Sirett, of the Britannia Paint Works. James Cousins and N. Spooner attended the I.O.O.F. rally at Lethbridge on Friday night, at which the grand master paid an official visit.

A miscellaneous shower, claiming Mrs. W. McKay (nee Wanda Ratko) as guest of honor, was held in the Catholic hall on Monday evening. Following an evening spent at various games, a dainty luncheon was served, and the guest of honor was presented with many beautiful and useful gifts, for which she ably thanked her friends.

Mrs. B. Eccleston entertained a few ladies at bridge on Monday night. Rev. Father Anderson, formerly of Taber, has taken over the local parish, succeeding Father O'Dea, transferred to Calgary.

The marriage of Anna, daughter of Mr. and Mrs. Joe Mottl, of Beaver Mines, to Mr. Lambert Rener, of Drumheller, took place at Beaver Mines Catholic church recently.

## ORPHEUM

THEATRE - BLAIRMORE

**LAST TIME TONIGHT**  
Friday, Sept. 27

The foretold vivifying! and appealing novel by John Steinbeck that was to become the most talked about at the moment! The book that startled a nation! Only Henry Fonda could have done the task to put it on the screen!

**"The Grapes of Wrath"**

Starring  
**HENRY FONDA**

**SAT. - MON. - TUES.**  
Sept. 28, 29, Oct. 1

She's the answer to what's new in delightful romance!

**"The Lady in Question"**

Starring  
**BRIAN AHERNE**  
**RITA HAYWORTH**

For the incurable romantics who still believe "love" the "grandest thing in life," it's an exhilarating experience.

**Added Attractions**  
Musical Number Travel Talk and Novelty

**WED. - THURS. - FRI.**  
October 2-3-4

**"IRENE"**

- with -  
**ANNA NEAGLE**  
**RAY MILLAND**

A gay world of glamour, fashions and girls that "getcha," with sparkling romance all tuned to a whirl of music!

I see by the papers where the Nazis are hoping mad, charging that the British are bombing them with potato bugs. Not long since, a news item stated that textile workers in Germany are making cloth for men's suits out of potatoes; so, these tater bugs may eat the pants of the Hitlerites, and turn the dictators into a Nude Deal. When a feller walks down Unter de Liden, dressed in an Early Ohio broadcloth, or an Idaho Russet serge, the R.A.F. can sure nuff do him a dirty trick by dropping a batch of spud bugs on his new toga. No matter how good a lawyer the well-dressed man might have, he would lose his suit. Those tater bugs are worse than moths, they chew the rag for hours in a guy's coat, vest and pants; while moths just take a back seat.—Ex.

**For Increased National Efficiency**  
**EAT MORE BREAD!**

CANADIANS—whose health record is high among the nations—obtain one-quarter of their food energy from bread.

Especially if your work requires quick or sustained energy, you should eat plenty of bread with each meal. Bread is rich in carbohydrates and, made with milk, as it usually is today—bread is an important source of protein, equal to meat in muscle building and repair. Eat more of this energy-giving food and increase your efficiency for today's emergencies!

**YOUR BAKER'S SKILL, scientific equipment—and the finest ingredients—give you a loaf unsurpassed in wholesomeness and delicious flavor.**

## No National Unity

**Failure To Develop It Made Rumania A Weak Country**

"Great Rumania" is the name which the Rumanians gave the state they created in 1918. It was about the size of New Mexico and had 17,000,000 inhabitants. It was Europe's seventh largest country in population. The people called new Rumania "great," because it had twice as much territory and more than twice as many inhabitants as the "Old Kingdom," prior to 1918. Naturally the state seemed great for the first time in modern history gave all Rumanians freedom.

This enormous and sudden expansion, not based on military prowess, on proven political ability nor on tested social co-ordination, created grave problems. Observed deep shadows hanging over Rumania from the beginning.

Every single neighbor of Rumania, except Yugoslavia, had become not only an implacable enemy, but also an active claimant for definite pieces of Rumanian territory. It was certain that a day of reckoning was coming and plain that all friends were far away.

Also, the Rumanians had in their midst more than three million foreigners, who considered themselves of superior quality and hoped to regain their traditional domination. The Rumanians were not able to develop the national unity and devotion required to swallow up internal opposition and resist outward pressure. So Rumania remained weak. No leader or group of leaders was able to direct the Rumanians to enthusiastic, voluntary co-operation. Toward the end, King Carol tried to impose unity by force but that failed. "Great Rumania" collapsed without a blow.

Many Rumanian intellectuals are exceptionally brilliant. Some are of noble character. The masses have phenomenal virility and pertinacity. But in two short decades this brilliant nation, inadequately led, could not overcome the momentum of history. The centuries were a torrent that broke down Rumania's frail dam. The past won.

Whenever freedom falls anywhere, among any people, it kindles hopes for a time toward a rebirth of the light.—Christian Science Monitor.

## People Of Canada Thanked

**Contributions To Red Cross Relief Gratefully Received In London**

The Canadian Red Cross Society received a cable from B. E. Anthony, chairman of London's organized relief forces, asking the Red Cross to thank the people of Canada for the "blessing" of supplies sent across the seas in England's hour of need.

Thousands of food, clothing and blankets poured into London two hours after the city "turned in despair" to Canadian Red Cross offices in England during the height of Germany's increased air attacks, the cable says.

The supplies were delivered by Canadian soldiers who "worked alongside our people and refused to take cover or cease work when German planes loomed overhead.

When the women of Canada could have seen the incidents which alone could have conveyed to Canada the greatness of your gifts or the necessity of them," the cable continues. "A father whose home had been destroyed and who left his wife to seek covering, stooped and kissed the four blankets given him."

At another center, a child clad only in night clothes clutched her bundle of clothing and wiped her tears, crying, "Look, mummy, they're new."

## Everything To Help

The spirit of sacrifice is rampant in Britain. A London hospital has just sold the works of its clock, installed in 1767, while in Liverpool, a man after keeping a jubilee sovereign valued at \$5, for 63 years, has donated it to a worthy cause.

## Pigeons Raid-Consious

Repeated air raids have made pigeons in London's Trafalgar Square raid-conscious. Observers report that on the first notes of the sirens the pigeons rise and fly away. And they don't come back until the "all clear."

## Was Worth The Flee

Henry Charles Kendall, of Bridgend, Wales, didn't know what alarm he was causing when he lit matches on the road at midnight to look for his false teeth. He was fined but recovered his teeth.

Japanese rice consumption requirements are estimated at 23,180,000,000 pounds annually.

## Eat For Health And Dieting

**Proper Foods Can Strengthen The Nation's Power**

(Published By Health League Of Canada)

One of the biggest problems in all civilized countries today is that of malnutrition! In some countries this results from an actual lack of certain necessary foods. In Canada it comes more often from an unwise choice of food.

One may eat heavily and expensively and still be undernourished. He may eat lightly and inexpensively and remain well nourished. It is a matter of incorrect or correct eating. To-day, more than ever before, it is necessary that every man, woman, and child in Canada should cultivate the highest possible degree of health and efficiency.

Learn to buy, prepare and combine foods correctly to supply all the essential needs of the body and brain, and you will be helping to raise the standard of national health.

An elementary knowledge of dietetics helps to: Save money! Save health! Save children, and to win the war!

## What Is A Correct Diet?

Meat, Fish and Eggs.  
Fresh Fruit and Fresh Vegetables.  
Milk and Cheese.  
Sugar, Fat (Butter, etc.),  
Tea and Coffee.

A good rough-and-ready rule is to divide one-fifth of the weekly food budget to each of the first four items above. The other fifth will include the two last.

## Watch Your Values!

The nutritive value of whole wheat bread is exceedingly high.

There are valuable nutritive qualities in inexpensive cuts of meat, but make certain they are government-inspected.

Wheat has a valuable food content and is commended for frequent use. Medium sized eggs usually are a better buy than either bantam or large.

Cook potatoes in their jackets, or pare as thinly as possible to preserve the vitamins content. Do not overcook green vegetables. Use the water in which potatoes and vegetables are cooked in making soups wherever possible. It contains valuable elements.

Use the frying pan as little as possible, and then cover and place over a low, slow flame. Meat burned to a cinder is only ash, not nourishment.

## What We Get Out Of Food

From a correct diet the body obtains proteins, muscle-building elements contained in fish, meat, cheese, etc.; fats, carbohydrates, the grain.

## THE A B C OF VITAMINS

Name	Effect	Sources
"A"	Maintains health. Promotes growth. Prevents skin disease.	Milk, butter, eggs, vegetables, liver.
"B1"	Prevents polyneuritis. Helps body to utilize food.	Milk, meat, eggs, whole grain cereals.
"B2"	Prevents pellagra. Aids in utilization of foods.	Milk, meat, eggs, whole grain cereals.
"C"	Needed for healthy teeth and gums.	Fruits and vegetables.
"D"	Needed for growth of bones and teeth. Prevents rickets.	Sunshine, eggs, fish liver oil.

It is true that the Indians didn't develop this country when they were running it; still, on the other hand, they didn't mortgage it.

Principal energy producing elements found in sugar and starches; various necessary minerals, and the vitamins. Vitamins are not a new "invention." They have always been present in human food, but their functions have been determined only in recent times. They are labelled A, B, C, and so on, and the lack of one or another of these vitamins in our daily meals causes ill-health.

Vitamin D prevents rickets in children. Vitamin C wards off scurvy. Vitamin B has its separate function and all are needed for health.

## How To Budget

The average family with an income of from \$20 to \$30 a week should spend from \$4.50 to \$10 a week on food. Above \$30 per week, reckon one-third to one-fourth of income up to \$60.

## Health For Children

Those familiar with the works of Dickens and other writers of his day, know the horrors of the crutches which once were practiced on children. Legislative reforms have long since put an end to such atrocities. But cruelty may come from ignorance and indifference just as surely as from viciousness.

Though its effects may be less spectacular and apparent, they are no less permanent and disastrous. The child who, from any cause other than dire want on the part of parents or guardians, is allowed to lapse into a condition of malnutrition because of inadequate or improper feeding, is the victim of criminal neglect even though the law does not recognize the crime.

Such a child is heavily handicapped in the battle of life. His growth is retarded; his bones remain soft and are easily deformed; his teeth cannot develop properly; his intelligence is adversely affected; he is almost certain to be rickety and anemic; he has vitality to fight off contagious diseases, and he falls an easy victim to tuberculosis!

The child needs milk and only pasteurized milk is safe—milk at the very least a pint a day—for calcium and phosphorus. He needs eggs, fruit, fresh vegetables and potatoes, and he needs properly cooked fresh meat. He does not need "bologna," "chip salami," or "hot dogs," and quantities of pastry, nor tea or coffee. He is better without pickles and other irritables.

The undernourished child is a liability to the country. The well-nourished child is an asset. Which do you want your child to be?

## SUNDAY SCHOOL LESSON

SEPTEMBER 29

THE USE AND ABUSE OF WEALTH

Golden Text: Lay up for yourselves treasures in heaven. Matthew 6:20.  
Lesson: Proverbs 11, Luke 16:1-13.  
Devotional Reading: I. Timothy 6: 17-19.

Explanations and Comments  
The Use of Wealth, Proverbs 11: 24-31.

One gives away, and still he grows the richer:  
Another keeps what he should give, and is the poorer.  
A liberal soul will be enriched;  
And he who withers will himself be watered.

—Moffatt's translation.

Verse 25 but emphasizes the first clause of the preceding verse. As Matthew Henry observes, "So backward are we to works of charity, and so ready to do that giving undone us, that we need to have it very much pressed upon us how much it is for our advantage, and to good to others."

"Illustrations from the law of husbandry abound throughout the entire book. Here applied to the principle of enrichment by generosity, it emphasizes the duty of unselfishness. We realize that the more we give, the more we receive. What men try to hoard for themselves, they lose. What they give with liberal hand to relieve the necessities of others, returns to them in the form of personal enlargement. For every such deed is seed-sowing whose harvest is immeasurably greater than itself" (J. Stuart Holden).

The thought in verse 26 is of holding back corn for high prices when there is a scarcity of food and it is greatly needed by the poor.

Each one shall be paid in his own coin: the doer of good with good, the doer of evil with evil. "There are those that by their extreme earnestness in pursuit of the world, their anxiety about their business and fretfulness about their losses, their strictness with their servants and their rigidity toward their families, trouble their own houses. All they get will not only be empty and worthless as the wind, but noisy and troublesome, vainly vexation."

There are those who are too busy with their own business, that either minds it not or goes awkwardly about it, that has no grace and consideration, not only loses his reputation and interest, but becomes a servant to the wise in heart. He is impractical, and forgets to eat those for his living; those that manage wisely raise themselves, and come to have dominion over him, and others like him. (Matthew Henry).

## Canada's Fur Industry

**Both Wild Life And Fur Farms Contribute The Pelts**

Canada is one of the leading sources of world supply for raw furs, states Agricultural and Industrial Progress in Canada, a monthly review published by the Canadian Pacific Railway. The Dominion occupies this position primarily by the possession of one of the great preserves of wild fur bearers, but an important contribution is made by the fur farming industry.

The leading area in fur production in the Dominion, as measured by value, is the Province of Ontario with Quebec second. The value of the pelts taken in Ontario in the fur trading season 1938-39 was \$2,627,700, while in Quebec it was \$2,230,000. The value reported for Prince Edward Island was \$1,299,300; Nova Scotia \$601,800; New Brunswick \$1,361,200; Manitoba, \$1,267,700; Saskatchewan, \$853,400; Alberta, \$1,945,100; and British Columbia, \$1,117,000. In the Yukon territory the value of the pelts taken was \$267,700, and in the Northwest Territories \$1,205,600. Both wild life and fur farms contribute to the takings of pelts in all provinces and the Yukon. Prince Edward Island is the original home of the fur farm.

Pattern 4442 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, dress, takes 3 1/2 yards 39 inch fabric. Bolero, 12 yards.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 170 McMillen Ave. E., Winnipeg.

## Nothing To Laugh About

**Query As To One's Ability To Milk Quite Ordinary**

The Niagara Falls Review says: Of all the questions in the national registration form, there was only one which seemed guaranteed for a laugh. This was that which queried: "Can you milk a cow?" Now what, getting down and examining it, is so funny about that? Giving milk is a natural function for a cow, and the helping her to give it has been going on for so long that it's almost in that category, too. The product is highly valuable as a food and the dairy industry is one of the world's largest. But the laugh was there, and not at the query about driving a truck, or tractor, or car.

Would a farmer's son laugh if you asked him if he could run a typewriter? No, of course not. Why, then, the laugh over the ability to milk a cow? The whole thing is highly bewildering.

Freemasons of more than 4,000 lodges have been invited to sacrifice their gold and silver and jeweled regalia to help the country war effort.

**Health LEAGUE OF CANADA**  
presents  
**TOPICS OF VITAL INTEREST**  
by DR. J. W. S. McCULLOUGH

Editorial Note: Readers who would like a valuable set of articles on the Cause and Control of Cancer may obtain them—free of all charge—by writing to: The Health League of Canada, Dept. W.N.U., 111 Avenue Road, Toronto, Ont. Just say: "Please send me Dr. McCullough's articles on Cancer," and print your name and address plainly.

## SLENDERING BOLERO ENSEMBLE

By Anne Adams

There's a gracious "leading lady" look about this frock and bolero, Pattern 4442 by Anne Adams. You'll start the fall season by wearing the ensemble, with the tailored, long-sleeved bolero, as a street outfit. Later, you'll wear the dress alone under your coat. Just see those well-balanced lines! The front skirt panel gives slim flattery. The simple bolero is shirred at shoulders and dartsed about the waist to keep its easy fullness in place. A row of tiny buttons from the V-neck to the waist creates nice up-and-down lines. A gay idea is to contrast the round rever of the jacket to match the dress. Let the Sewing Instructor help you finish quickly.

Pattern 4442 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, dress, takes 3 1/2 yards 39 inch fabric. Bolero, 12 yards.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 170 McMillen Ave. E., Winnipeg.

## Plan Being Studied

**To Make Only Two Appeals Yearly For Charitable Funds**

A plan looking toward restriction of appeals for charitable funds in Canada to two main drives annually, one for war charities and the other for civilian welfare work is being studied by the voluntary services branch of the national war services department at Ottawa.

Hon. J. G. Gardiner, minister of national war services, said in an interview that charitable organizations are studying a suggestion that a date be fixed from which it may be determined that henceforth campaigns for the two charitable purposes may be made at one time.

People love to worry. We often find ourselves worrying about affairs that are none of our business.

Most of us are willing to worry along without necessities. Giving up luxuries is what hurts.

On a very hot day, the air is not as dense as on a cool day.

**DOUBLE AUTOMATIC BOOKLET**

**WORLD HAPPENINGS BRIEFLY TOLD**

Ontario acted to safeguard its civilian population from such wartime dangers as air raids and sabotage with the establishment of a Civilian Protection Committee.

The Australian government announced its decision to purchase 11 flying boats in the United States at a cost of \$1,000,000 (\$3,500,000) for delivery before the year-end.

Fifty thousand packages of antitetanus serum for prevention of lockjaw among victims of air raids in Britain will be shipped from Canada immediately, was announced.

United States army authorities cleared the Panama Canal zone of all known illegal residents, shipping 134 of them to Ellis Island, New York, aboard the army transport American Legion.

Glen Nixon, veteran Young Men's Christian Association official of Vancouver, has been appointed national secretary for public relations by the Canadian Y.M.C.A. national council, officials announced.

To conserve United States exchange for war purchases, the sale of imported fuel oil to new oil-burning plants is prohibited, with certain exceptions, under an order issued by George H. Cottrill, federal oil controller.

## Australians Are Good Sports

**Soldiers In London Ask Good Answers To Any Question**

According to the London correspondent of the Ottawa Journal you really have to hand it to these Aussies. They may be slack on the salute, and have original ideas about certain army regulations, but they are a genitil sporting crowd. When they first arrived a Fleet Street war journalist set about interviewing samples. The first Aussie she buttonholed, a hard-bitten giant as sun-blackened as a tank, answered pat when she inquired why he had come across. "Someone was hurting the old lady," he said.

Corporal "Cass" Shank, another genial giant, thinks Fleet Street a bit dowdy, and Buckingham Palace on the small size, but loves sauntering across the roads whilst a Metropolitan bobby holds up the London traffic. "Bac home," he explains, "that is called yay-walking, and it costs you a pound, plus eight shilling costs."

There is one full private, just short of 50 inches chest measurement, whom the Aussies are backing against any German tank. A large number of these fine young soldiers from Down Under lost fathers or brothers in the "last one." They are quite seriously out for squaring accounts. "If they land," observed one tall fellow with his cross guns "up," "they'll be unlucky!"

## A Confession Of Failure

**Hitler's Allusion To Long War Is Admission Of Defeat**

In his boast that he is prepared for a five years' war, Hitler has made open confession of the failure of his planned lightning thrust against Britain. He has had to admit to those who have thought that he could not err, that his time-table of conquest has at last had to be abandoned. His chariot of victory has broken down.

The boast of his ability to carry on for five years was anticipated by frenzied shrieks about the ineptitude of the British blockade. His hearers who are in a position to judge of the efficiency of that blockade may be able to reach their own conclusion as to the ability of Germany to carry on. Some at least will be able to see that the Nazi idol has feet of clay.

Nowhere will the frenzied tones of Hitler's confession of failure be received with greater exultation than among those peoples whom the Nazi machine has crushed who overrun Everywhere along the route of the bullying Hun, Freedom will draw a new breath and look with renewed hope towards her British champion.—Toronto Telegram.

The title of a human being is really more serious than the average bite of a dog, cat or horse because the human mouth contains a greater variety and larger quantity of dangerous bacteria.

## The Park Lane Mystery

By Edgar Wallace

Copyright, by Edgar Wallace.  
Serialized by Ledger Syndicate.

### CHAPTER XVIII.

The two detectives waited until a taxicab had been hailed; they drove into Palace Yard at the moment Sir Joseph's car was moving back to the rank.

"I don't see why you pulled me away from that party, Carlton," grumbled Elk. "Look on this picture and look on that! Look at my Park Lane and my old Westminster!" And then, when his companion did not reply, he asked anxiously: "Something wrong?"

"I don't know. I've only a sort of feeling that we're going to see an earthquake—that's all," said Jim emphatically, as they passed into the lobby.

Sir Joseph was in his room and could not be disturbed, a messenger told them. Jim had signed tickets and they passed into the chamber and took a seat under the gallery.

The House was well filled, except the Government benches, which, save for the presence of an Under-Secretary, deeply immersed in the contents of his dispatch box, were untenanted. Evidently some motion had been put to the House and the result announced just before the two visitors arrived, for the clerk was reading the terms of an interminable amendment to a water and power bill when Sir Joseph strode in from behind the Speaker's chair, dropped heavily on the bench and, fixing his horn-rimmed pince-nez, began to read a sheaf of notes which he carried.

At that moment somebody rose on the Opposition front bench.

"Mr. Speaker, I rise to ask the right honorable gentleman a question of which I have given him private notice. The question is: Has the right honorable gentleman seen a statement published in the Daily Telegraph to the effect that relationship between His Majesty's Government and the Government of France are strained as the result of the Bonn incident? And will he tell the House whether such a statement was issued, as is hinted in the newspaper account, with the knowledge and approval of the Foreign Office?"

Sir Joseph rose slowly to his feet, took off his glasses and replaced them again, nervously gripped the lapels of his coat and, leaning forward over the dispatch box, spoke: "The right honorable gentleman is rightly informed," he began, and a hush fell on the House.

### Ask for BEE HIVE

Members looked at one another in amazement and consternation.

"There does exist between His Majesty's Government and the Government of France a tension which I can only describe as serious. So serious in fact, that I have felt it necessary to advise the Prime Minister that all naval and military Christmas leave shall be stopped, that the Defense of the Realm Act shall be reintroduced and that all naval reserves shall be immediately mobilized."

A motion of deadly silence. There was a roar of protest. There was hurried at the Government benches a hurricane of indignant questions. Presently the Speaker secured silence, and Sir Joseph went on, in his grave, husky tone:

"I am not prepared to answer any further questions tonight, and I must ask honorable members to defer their judgment until Monday, when I hope to make a statement on behalf of His Majesty's Government."

And with that, unheeding the calls, he turned and walked behind the Speaker's chair and out of sight.

"Good God!"

Jim was white to the lips.

"That means war!"

Elk, who had fallen into a doze, woke with a start, in time to see his companion flying out of the House. He followed him along the corridor to Sir Joseph's room and knocked at the door. There was no answer. He turned the handle and walked in. The room was in darkness and empty. Rushing out into the passage, he was saying a messenger.

"No, sir, I've not seen Sir Joseph. He went into the House a few minutes ago."

By the time he got back Jim found the lobby crowded with excited members. The Prime Minister was in the House of Commons; the First Lord of the Admiralty and the Secretary of War had left that afternoon to address a series of public meetings in the North; and already the telephones were busy seeking the other members of the Cabinet. He found nobody who had seen Sir Joseph after he left the House until he came upon a policeman who thought he had recognized the Foreign Minister walking out into Palace Yard. Jim followed this clue and had it confirmed. Sir Joseph had come into the Yard, taken a taxi (though his car was waiting) a few minutes before. The detectives almost ran to Whitehall Gardens, and here they had a further shock. The Minister had not arrived at his home.

"Are you sure?" asked Jim incredulously, thinking the butler had come to rebuff all callers.

"Positive, sir. Why, is anything the matter?" asked the man in alarm.

Jim did not wait to reply. They found a cab in Whitehall and went beyond legal speed to Park Lane. There was just a chance that the Foreign Minister had returned to Harlow's. When they reached Green-hart House there came to them the strains of a jazz band; dancing was in full swing, both in the library and in the large drawing room overlooking Park Lane. They found Harlow, after a search, and he seemed the most satisfied man of all.

"Of course, he hasn't come back here. He told me he was going to the House and then home to bed. What has happened?"

"You'll see it in the newspapers in the morning," said Jim curtly, and drove back to Parliament in time to find the members streaming out of the House, which had been adjourned.

Whilst he was talking with a member he knew, a car drove up and the man who alighted was instantly hailed. It was the Chancellor of the Exchequer, the broad-shouldered man with a stoop, the most brilliant member of the Cabinet.

"Yes, I've heard all about it," he said, in his thin, rasping voice. "Where is Sir Joseph?"

He beckoned Jim, who was known to him, and pushing his way through the crowd of members, went back

with him along the corridor to his room.

"Where you in the House when Sir Joseph spoke?" he asked.

"Yes, sir," said Jim.

"Just tell me what happened."

Briefly, almost word for word, Jim Carlton repeated the astonishing speech.

"He must be mad," said the Chancellor emphatically. "There is not a word of truth in the whole story, unless—well, something may have happened since I saw him last."

"Can't you issue a denial?"

Mr. Kirkland hit his lip.

"In the absence of the Prime Minister, I suppose I should, but I can't do that until I have seen Sir Joseph."

A thought struck Jim.

"He is not what one would describe as a neurotic man, is he?"

"No man less so," said the Chancellor emphatically. "He is the sanest person I've ever met. In his secret room in the House?"

He rang a bell and sent a messenger in search, while he endeavored to get into touch on the long-distance phone with the absent Ministers.

The secretariat of Downing Street were evidently engaged in a similar quest, with the result that until 1 in the morning neither had managed to communicate with the head of the Government.

"We can't stop this getting into the newspapers, I suppose?"

"It is in," said the Chancellor laconically. "I've just had a copy of the first editions. Why he did it I haven't any idea! He has certainly smashed the Government. What other results will follow I dare not think about."

"What do you think will be the first result of Sir Joseph's speech?"

"The Minister spread out his hands."

"The markets, of course, will go to blazes," but that doesn't interest us so much as the feeling it may create in France. Unhappily, the French Ambassador is in Paris on a short visit."

Jim left him talking volubly on the Paris wire, and at 3 o'clock in the morning was reading a verbatim report of Sir Joseph Layton's remarkable lapse. The later editions carried eight lines in heavy type:

"We are informed by the Chancellor of the Exchequer that the Bonn incident has never been before the Cabinet for discussion, and it is not regarded as being of the slightest importance. The Chancellor informs us that he cannot account for Sir Joseph Layton's extraordinary statement in the House of Commons."

All night long Jim literally sat on the doorstep of Whitehall Gardens, waiting without any great hope for Sir Joseph's return. He learned that the Prime Minister was returning from the West by special train and that a statement had already been issued repudiating the statement of the Foreign Minister.

(To Be Continued)

### Agricultural Products

Bacon, Cheese, Eggs And Poultry Purchased By Britain.

Since Canada's export trade in most agricultural products is largely with the United Kingdom, the present and future demand for these products is almost entirely dependent on the course of the war itself and the policies of the United Kingdom government departments concerned with the food supplies, shipping, exchange, and allied fields, states the Current Review of Agricultural conditions in Canada. Agreements have been negotiated between the Canadian and United Kingdom governments in connection with certain specific commodities such as bacon, cheese, eggs and poultry. United Kingdom government of wheat have been purchased both on the open market and directly from the Wheat Board. Current Review of Agricultural Conditions in Canada.

Tuberculosis of the spine has been noted in human skeletons more than 10,000 years old.

### Has Become Real Science

Successful Bombing From Air Is No Haphazard Job

Among laymen there appears to be a popular misconception that bombing from the air is a sort of trial-by-error process, with bombs dropped directly over a target and falling much like a Sim Feiner might drop a brick from the upper story of a building. The truth is that bombing, like many other phases of modern warfare, is a highly scientific form of assault, based on precision of a hair's-breadth, and its timing determined by extremely sensitive instruments.

When a plane is in level flight, and a bomb is released, the bomb does not immediately drop downward, rather does it follow the same horizontal position as the plane, and its speed is also the same as that at which the plane is travelling. This horizontal trajectory continues until the bomb begins to lose its forward speed, and then it gradually slopes vertically toward the earth. The fins attached to it serve as rudders and prevent it from tail-spinning.

At right, speed of the plane, and its altitude are all important factors in working out the trajectory a bomb must follow if it is to reach its mark. As a plane nears its objective, the navigator watches the bombing sight, which is the nerve centre of a bomber's finely-adjusted equipment and can be manipulated to resolve the intricate calculations and the several elements that precede the release of the missile. The plane's altitude may commonly be ten thousand feet, its speed two hundred miles an hour, and the target as yet two miles away. The pilot must now head his ship on the target, keep it there, and faithfully maintain altitude, while the navigator is still concentrating on the bombing sight. At the instant that the sight shows the target to be in perfect alignment, the bomb is released, and these calculations, at a point one and one-third miles ahead of the target. The forward flight of the bomb is 294 feet a second, and the time it takes to reach its objective, the bomb, if everything has been worked out accurately, is just hitting its target and exploding. It all sounds difficult and, admittedly, it is not easy.

How all this can be done with consistent accuracy is perhaps hard for the layman to understand; but such is aerial warfare, as young British fliers are demonstrating it every day and night. Their aiming and timing of bombs are based on laws of mathematics and physics that are depended upon to produce an infallible result, all things being equal.

British bombers may yet bring Mr. Hitler to his knees—Hamilton Spectator.

### Used U.S. Planes

Canada Takes Over About Two Dozen For Training Purposes

Canada has taken over about two dozen second-hand fighting planes which the United States army air corps originally released to France as materiel that country's fall, it was learned.

The planes, which are obsolete as far as the U.S. army air corps is concerned, will be used for advanced training under the Commonwealth air corps, and these planes are Northrup attack planes, and will be used temporarily in conjunction with the standard Harvard trainers while there is a shortage of Harvard planes.

### Go Straight Down

In these days of many ships sinking, it is interesting to note that when they sink, ships settle to the bottom immediately, almost directly below the place they were sunk, unless a sub-ocean current is encountered.

### War Expansion in Canadian Industry

The erection or enlargement of more than 100 industrial plants in Canada under the government's industrial development program now involves expenditures totalling some \$100,000,000. These will help provide for Canada's growing war needs.

The tragedy of Germany is not that the people have become enslaved to a mad ideal, but that they no longer care to cancel their own captivity.

Herr Hitler is learning to his dismay that there's something tougher than masonry and concrete. It's the fighting spirit of the British peoples.

Parts of some suits of ancient armor often were corrupted like modern steel roofing in order to give them greater strength.

Lie detectors are used by police departments in 15 cities in the United States.

### Theory Declared Wrong

Abstaining From Meat In Summer Does Not Affect Body Heat

The old advice to eat less meat to keep cool in hot weather was shown to be exactly wrong in experiments reported to the American Chemical Society at Detroit.

The right way, said Dr. E. B. Forbes, director of the institute of animal nutrition at Pennsylvania State College, is to eat lean meat and other protein food as usual, and be careful about consumption of starch, sugar and fat.

The old theory rested on experiments in which each kind of food was fed by itself and meat, or protein, caused the greatest amount of body heat. In Dr. Forbes' experiments he fed proteins, fats and sugars all together and showed that under those circumstances the meats don't cause so much heat production.

### HOME SERVICE

STRETCH FAMILY INCOME BY SIMPLE BUDGET PLAN

Have Money for What You Want

"Get the things I want? Why, I can't even pay for the musters," people say. "There's always a bill left over, a pet project put off. If only I had more money!"

Budget—is the answer. Planned spending not only keeps run-away expenses in line but it actually seems to stretch your income.

Those bills that look like mountains are just the result of carelessness in spending and planning. By impulsive marketing you may have run up a grocer's bill that's 20 per cent. over the amount your budget recommends.

For a family of three on \$125 a month, 10 a week is ample for food. Learning to use the cheaper cuts of meat and taking advantage of "specials" can be fun—and may save as much as \$8 a month (\$96 a year) to spend on your dearest desire.

As for unexpected dentist's bills, repairs to the house—they need never burden a budget. Your budget provides a fund for these "Large Occasional Expenses," enables you to pay taxes and other big bills without a qualm.

Make your money go further with a budget. Our 32-page booklet tells how to apportion your income according to your needs. Gives advice on buying, saving, has ruled pages for a year's account.

Send 15 cents in coins for your copy of "How to Budget and Buy for Better Living." Home Service Dept., Winnipeg Newspaper Union, 271 McDermott Ave. E., Winnipeg, Man.

The following booklets are also available at 15c each:

108—"Making Plans and Flowers Grow Indoors."

113—"How to Succeed in Success Making."

112—"How to Make Sip Covers."

114—"The Meaning of Dreams."

164—"Party Games For All Occasions."

180—"What You Should Know About Nursing."

### Canadian Research Council

Will Promote Research And Consider New Ideas Of Social Science

Organization meeting of the Canadian Research Council in Social Science was held at Ottawa and Prof. R. G. Trotter of Queen's University, Kingston, was elected president.

Membership in the organization will be restricted to 16 representatives of all branches of social science, elected for varied terms. Its purpose will be to promote research and consider new ideas of social science.

Other members appointed to the executive were: J. E. Robbins, Dominion bureau of statistics, Ottawa, secretary-treasurer, and Prof. H. A. Innis, University of Toronto, Prof. F. C. Cronkite, University of Saskatchewan, and Prof. C. A. Dawson of McGill University, Montreal.

### Prison For Dutch Worker

Because He Valued Queen Wilhelmina's Words More Than Hitler's Reports from the Netherlands said that a Dutch worker was sentenced to a year and a half in prison by a German court at Utrecht for saying that the words of the honorable Queen Wilhelmina are to be respected more than that German paperhanger says. The court ruled that this was an insult to Adolf Hitler and, thus, an insult to the whole German people.

—Wrigley's Spearmint Gum is the favorite! Millions enjoy its long-lasting, genuine spearmint flavor. Healthful, delicious, refreshing! Get the good habit of enjoying it after every meal!

### A Disraeli Prophecy

British Statesman Wrote With Clear Vision In 1859

This prophecy of Disraeli, written in 1859, would seem to be bearing its fulfillment; and it is indeed a heartening message from the past—Remember always that England, though she is bound to Europe by tradition, by affection, by great similarity of habits and all those ties which time alone can create and consolidate, is not a mere Power of the Old World. Her geographical position, her laws, her language, and her religion, connect her as much with the New World as with the Old.

Still, if ever Europe by her shortsightedness falls into an inferior and exhausted state, for England there will remain an illustrious future. We are bound to the communities of the New World, and those great states which our own planting and colonizing energies have created, by ties and interests which will sustain our power and enable us to play as great a part in the times yet to come as we do in these days, and as we have done in the past. And therefore... I say it is for Europe, not for England, that my heart sinks.—Mrs. I. Davy, in London Times.

### GEMS OF THOUGHT

#### GREATNESS

Nothing can be great which is not right.—Samuel Johnson.

Great minds had rather deserve contemporaneous applause without attaining it than attain deserving it. If it follows that it is well, but they will not deviate to follow it.—Colton.

Every luminary in the constellation of human greatness, like the stars, comes out in the darkness to shine with the reflected light of God.—Mary Baker Eddy.

Strength of character lies not in demanding special circumstances, but in mastering and using any that may be given.—Canon Scott Holland.

The workshop of character is everyday life. The uneventful and commonplace hour is where the battle is lost or won.—Maltbie D. Babcock.

The final proof of greatness lies in being able to endure continually without resentment.—Elbert Hubbard.

You see approximately 1,200 stars in the sky on a clear night.

DRIVE WITH CARE  
WHEN NEAR SCHOOLS

Warning to motorists to use extra care when approaching or passing schools is sounded by the Alberta Motor Association, now that schools are open, following summer vacation.

There are thousands of youngsters attending school for the first time. Many of these will be unaware of the dangers that lurk on the highways from speeding cars or other vehicles.

Many accidents occur when the kiddies are at play. They dash across the street or roadway, chasing a ball or having other games during the recess period, without thinking that a car may come along any moment.

The entire responsibility for protection of the child should not be placed on the motorist.

Parents and teachers also should show their co-operation, warning children before leaving home and later in the classroom, that they should "stop, look and listen" before crossing the street, in the opinion of officials of the A.M.A.

On the other hand, there will be A.M.A. boy patrols in operation at some schools to help the smaller children in crossing the street safely. Many schools have not yet reached this stage, making it all the more necessary for motorists to exercise extreme care when in the vicinity of any school zone.

## THE IRRESPONSIBLE CYCLIST

Talk about the dangers of the open-mouthed lake, the cigarette, the romantic moonlight, the slot-machine, even the demon "pub" — well, the thing that gives me the jitters is the bicycle, that irresponsible device which, unlike the average drunk, can not stand up alone. There is not more accidents can be accredited to the car drivers. The car drivers' seating capacity is regulated by law, but the two-wheeled bicycle is privileged to wobble and ewering down through the heavy traffic, with two children sticking precariously to its frame. When wheeling single, the rider often uses the opportunity to do a little trick-riding on the narrow highway. This to the accompaniment of a chorus of honking horns. Such lack of discipline makes one wonder what becomes of those matrons who at times make themselves so prominent by street cruising for the welfare of youth.—Leamington Post and News.

Mrs. Checker: "How do you like the cook's meat sauce? She says it brings out the flavor."  
Mr. Checker: "I wondered how the flavor got out."

Mr. Fizz: "This motor is heating up worse than ever."  
Mrs. Fizz: "Isn't it provoking—and I had a man come in only this morning and disconnect the radiator."

Mrs. Brown: "Who was that gentleman that came in just now?"  
Maid: "That was no gentleman, ma'am. That was only Mr. Borwine back for his umbrella."

A well known local district insurance man walked into a lunch room, and taking his place on one of the vacant stools, ordered bread and milk. The fellow on the next stool asked: "On a diet?"  
"No, Commission."

## NEWS FROM EDMONTON

(F. B. Windross)

Edmonton, Sept. 23. — During the past week the central theme for speculation and interest has been what will be the final result of all negotiations over solution for the wheat problem? Everywhere in Alberta, where the marketing of the grain crop is of paramount importance to the welfare and prosperity of the province, the question has been heard.

The chief spokesman so far on the Dominion government side of the matter has been Hon. J. A. MacKinnon, who has been in Edmonton on his first visit since becoming a cabinet minister without portfolio. Mr. MacKinnon spent several days in Edmonton, and spoke both publicly and privately as to the solution was not far away, and was a certainty. He repeatedly spoke of the hopes of the government for a speedy settlement in the interest of the farmers in the west.

Enroute back east, Mr. MacKinnon told interviewers in Winnipeg, Friday evening, he hoped that a quota of 10 bushels for each seeded acre of wheat would be general in the west by December 1st.

With a general quota of 10 bushels to the acre, normal exports of 3,000,000 bushels a week and home consumption of 1,000,000 bushels a week, it could be expected that about 85 per cent of this year's crop would be off the farm by the end of the crop year, July 31st, said Mr. MacKinnon.

The minister emphasized that the possibility of an advance on farm-stored grain had not been ruled out.

While Alberta farmers and others in western Canada continue to await some definite word on the solution of payment and marketing of the western wheat crop, authoritative reports from Ottawa over the week end indicated that the whole story of negotiations under way has not been divulged yet to the public by the federal government or any of its members.

A few more weeks may elapse before certain definite proposals made already to the Dominion, offering real assistance to it in taking over the crop from the farmers, have been considered intensely enough by the federal authorities to allow a definite decision on them, and to start the machinery in action if they are adopted.

Meanwhile, Premier John Bracken, of Manitoba, who reportedly has played an important part in negotiations so far with federal authorities concerning the wheat crop, has issued a statement refuting the idea that any organization or body except the federal government is responsible for the solution of the problem.

"The door of the Dominion is exactly where the problem lies, and nowhere else," Premier Bracken said. "The Dominion government has bought the crop, but has so far arranged to pay for only one-third of it. As a result, the western economy will be short 50 to 100 million dollars for the next two months."

"This shortage can be provided, or it can be withheld through the instrumentality of the Dominion, and by no one else."

## Love Ledgers

For many months the canny Scotch wooer had come courting without committing himself. Then he felt the time had come to begin to speak. Producing a well-thumbed notebook, he said: "Maggie, I've been weighing up your good points, and I've counted up to ten. When I get to the dozen, I'll have something to say."

"Well, I wish you luck, Jock," was the maid's cold response. "An' I've been reckoning up your bad points, and I've reached nineteen. When I gets to twenty, I'm marrying Ferguson, the plumber."

## A Sacred Spot

Feminine Voice on Telephone: "Is my husband at the Club?"

Porter: "No, ma'am."

Voice: "But I haven't told you who I am."

Porter: "Ah knows dat, lady, but dey ain't nobody's husband heah, nevah!"

## PREPARATIONS FOR CALLING UP SINGLE MEN AND CHILDLESS WIDOWERS

Ottawa, Sept. 21. — In less than thirty days after undertaking the tremendous task of National Registration, the Canadian government is already utilizing the information obtained, and the mailing of notices to the first group of some 45,000 single men and childless widowers who have been called out for military training by Proclamation of the Governor-in-Council, is now under way.

These notices instruct the recipients to visit a doctor and submit to a medical examination within a clean three days of notification and if found to be fit, a second notice will be sent to report to an indicated military training centre under the Department of National Defence for a period of thirty days.

An official announcement of this remarkable achievement, which reflects the ever-accelerating tempo of Canada's war effort, came today from Hon. James G. Gardiner, minister of National War Services. Mr. Gardiner, whose department has been working day and night setting up the necessary machinery to assure speedy and efficient operation of the training plan, outlined a few of the many preparations made.

The services of all qualified medical practitioners throughout the Dominion have been enlisted by Mr. Gardiner, so that there will be no delay in determining the physical fitness of the men called upon. Under this plan, there will be no "lineup" of waiting applicants. Men may visit their own or any conveniently located physicians. Doctors have received detailed instructions concerning the physical standards set for the Canadian Active Service Force and for the Non-Permanent Active Militia.

During the medical examination, men will be called upon to state whether they have ever suffered from such disorders as rheumatism, tuberculosis, heart disease, stomach trouble, rupture, varicose veins; ear, eye or nasal trouble; nervous, mental or social diseases, and if they have ever been rejected for military service. In his report, the examining physician will certify the man's physical category.

Under the National War Services Regulations, any physician who makes an inaccurate statement or signs an inaccurate certificate, will be guilty of an offence and liable, on summary conviction, for imprisonment or to a fine or both. Likewise, heavy penalties will be imposed on any eligible individual who, having been sent a notice of call, fails to report for a medical examination. It is the aim of the Minister and his deputy, Major General L. R. La Fleche, who is responsible for the execution of the plan, that the selection of the men shall be scrupulously impartial.

With the convenience of applicants in mind as well as speedy efficiency, Canada has been divided into 13 administrative divisions, each with a board comprising a judge as chairman, supported by two representative citizens, and also a divisional registrar who will act as secretary and to whom any person seeking information as to procedure may, and should, apply. The divisional registrar for Alberta is Mr. J. P. McIsaac, Court House, Edmonton.

All medical reports will be submitted to the divisional registrars, while any appeals or controversial issues which may arise will be directed to the divisional board through the registrar.

Medical examination of the first group of men, according to Mr. Gardiner, will get under way within the next few days, and the first to be called for training—30,000 men—will proceed to training centres for October 9th.

"My time," said the magnate, "is worth \$100 a minute."

"Well," answered his friend casually, "let's go out this afternoon and play \$10,000 or \$15,000 worth of golf?"

## CANADIANS IN NEWFOUNDLAND ARE FIT AND HAPPY

With the C.A.S.F. in Newfoundland—Canadian troops in Newfoundland are ready to serve notice on Adolf Hitler any time, Marsh D. Peters, supervisor of Canadian Legion War Services here, said in an interview recently. He expressed the conviction that the health of the men is superlative, and that their morale and fighting spirit are at the keenest pitch.

Describing what he termed "of vital importance," Mr. Peters explained that the work of the Legion war services among the troops is primarily to render all possible assistance in making the men happy and comfortable under active service conditions.

Hundreds of thousands of sheets of free writing paper and envelopes, daily newspapers, magazines, balls, bats and games; free cigarettes, as well as comforts to those in hospitals are distributed regularly by the Legion to the troops, he said. In addition, the Legion presents weekly moving pictures with sound, organizes sing-songs and concerts, and arranges and supervises baseball games among the various units.

He added that the Legion's education scheme, whereby the men could take up or continue studies to prepare themselves for their return to civil life, and at the same time to improve their military efficiency, will be instituted this fall. A Legion education officer is expected to arrive at Newfoundland within the next few weeks to get the programme under way.

"The Legion realizes, from experience in the first Great War, that boredom is an enemy agent," Mr. Peters said. "We are trying to combat that by providing education opportunities, entertainment, sports and other services of varying kinds. All our activities are non-profit making." The hospitality of Newfoundlanders is amazing, he said, and told of the people of one town who, without charge, housed and fed a large contingent of men during a week-end leave. Officers and men alike have never seen or heard of such kindness anywhere else in the world, he stated.

Mr. Peters paid tribute to the co-operation being extended the Legion by the military authorities, "every one of whom," he added, "is deeply appreciative of the work we are doing."

FIDELITY  
There's a little bit of country 'twixt the ocean and the sea.  
It's a place that time and honor have made grand;  
And it's steeped with fine traditions and as noble as can be—  
It's a beautiful and a sentimental land.

It's the land that we were born in and knew our childhood days,  
'Midst its commons and its copses and its dales;  
Now it's calling and it's pleading for its sons it's sorely needing.

If they hail from England, Ireland, Scotland, Wales.

So it's up to us to answer and either join the forces,  
Or if the eye or vigor have grown dim,

Then open up our purses, give the best of our resources,  
For we're up against a combat stark and grim.

We know we're going to conquer, but not by wishful thinking,  
But by fighting in the air and on the main

Till we've crushed the cruel tyrants and all of their aspirants,  
And Peace comes to those islands once again.

—Evan Beechman, Milo, Alta.

Teacher (to class): "Now, children, I want you to draw a ring." All the children did so, except Tommy, who drew a square. "Tommy, I told you to draw a ring, and you have drawn a square. Why?"

Tommy: "Well, mine's a boxing ring."

A small man named Brooks, sitting in the corner of a street car, glared at a very stout woman who occupied most of the seat. "It's a pity they do not charge passengers according to their size," he remarked.

"If they did," retorted the stout lady, "they wouldn't stop to pick you up!"

The old lady had made the unfortunate young clerk fetch roll after roll of linoleum, until he had displayed everything in the store. "What did you say it was for, madam?" he asked at last in despair.

"Oh, didn't I tell you?" replied the customer brightly. "It's for the bottom of the canary cage."

## LOCAL AND GENERAL ITEMS

E. Butler, of Hillcrest, has moved into a house in South Blaimore.

Quite a number of local boys signed up for military service yesterday.

The T. Eaton Company has donated \$250,000 towards the war research programme.

Sergt. Major Jim Greenwood, of the R.C.A. at Camp Shilo, is visiting his home in Macleod.

Ten thousand bucks or more for a quick expert isn't much, but ten bucks for relief is too much.

Mrs. J. S. Whyte, of Bentley, formerly of Pincher Creek and Blaimore, passed away recently, aged 69.

Districts 18 and 26, of the United Mine Workers of America, have subscribed \$20,000 to Canada's second war loan.

Pupils of Pass schools will gather at the Blaimore athletic stadium on Friday next for the interscholastic field and track meet.

A farmer in the Innisfail district reports taking four potatoes from one hill with a total weight of nine pounds three ounces.

John Soprovich, of Hillcrest, died suddenly near Natal last week, after he had bargained to purchase the Weaver dairy farm near Wilson Creek. The remains were brought back to Hillcrest for burial.

The annual meeting of District 8, A. P. & A. M., will be held at Macleod on Wednesday, October 16th. The following lodges will participate: Coleman, Blaimore, Hillcrest, Cowley, Pincher Creek and Macleod.

Mr. and Mrs. William Harrison, of Coleman, announce the marriage of their daughter, Amy, to Mr. Leonard Wright, of Cowley, the marriage taking place at Trail, B.C., on September 3rd. The young couple will take up residence at Erio, B.C.

One of the most remarkable tests of "mother nature" was on display at the Creston Farmers' Institute recently, a sunflower grown from seed that reached a height of 14 feet with lime fertiliser. It was grown by A. Confort, and the fertilizer came from the Comfort mine.

A small boy was sitting on his father's knee watching his mother as she painfully went through the delicate operation of doing her hair in the most becoming wave effect. "No waves for you, Pa," said the infant philosopher as he fondly polished his father's bald head, "you're all beach."

Dick Kowcinak, Mel Snowdon and Johnny McCree, last year with the Kirkland Lake Blue Devils, Canadian amateur hockey champions, will play this season with the Sydney Millionaires in the Cape Breton league. The trio were with the Trail Smoke Eaters when the British Columbia team won the Allan cup in 1938.

H. C. in his Pertinent Topics remarks: "The United Mine Workers are giving trouble in Nova Scotia, and when the Labor minister goes down to settle it, they present him with a demand that the government take over all industry. The Union is a branch of the C.I.O., whose policy is destructive and whose leaders are communistic."

Through their own Press, Slovak and Ukrainian communities in Canada give unstinted support to the fight against Hitlerism. The Slovak language weekly, "Slovenske Bratstvo" (Slovak Brotherhood), published in Montreal, quotes this resolution passed at the third annual conference of the National Slovak Mutual Benefit Association, held at Sudbury: "We express our boundless loyalty to Canada and to the British Empire in the war against the forces of darkness in the struggle for freedom and justice. We express our boundless loyalty to His Majesty the King. England's struggle is our struggle; England's victory our victory. Long live the King, long live Canada and freedom."

## A MAN AND HIS DOGS

This isn't a "red hot" yarn, but it is worth repeating and remembering. We lifted it from Sales Trails, the friendly bulletin from Bulman Bros., Winnipeg.

There was a man who lived by the side of the road and he sold hot dogs. He was hard of hearing so he had no radio.

He had trouble with his eyes so he read no newspapers.

But he sold good hot dogs. He put signs up on the highway, telling how good they were.

He stood on the side of the road and cried: "Buy a hot dog, mister!" And people bought.

He increased his meat and bun orders. He bought a bigger stove to take care of his trade. He finally got his son home from college to help him.

But then something happened. His son said: "Father, haven't you been listening to the radio? Haven't you been reading the newspapers? There's a big depression on. The European situation is terrible. The domestic situation is worse. Everything is going to pot."

Whereupon the father thought: "Well, my son's been to college, he reads the papers and he listens to the radio, and he ought to know." So the father cut down on his meat and bun orders, took down his advertising signs, and no longer bothered to stand out on the highway to sell his hot dogs. And his hot dog sales fell almost overnight.

"You're right, son," the father said to the boy, "we certainly are in the middle of a great depression."

IN MEMORIAM—Pretty soon the town of Blaimore will be celebrating the third anniversary of the destruction of Tim Buck's Boulevard.

To live up to the letter of the registration regulations, it appears one is not safe unless he has his certificate attached to his body while sleeping.

Chain letters are again being received by citizens across Canada, in spite of the ban on them by the Dominion government law placed on the statutes four years ago.

Mrs. A. E. Cox, mother of Mrs. A. M. Burnett, lies seriously ill in St. Vincent's hospital at Pincher Creek. All members of the family have been called to their Pincher Creek home. Latest reports state that Mrs. Cox's condition seemed somewhat improved.

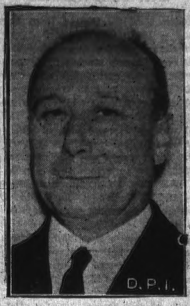

Sixty-six of the passengers of the torpedoed evacuee ship City of Benares, including six of the 37 children, were picked up from a lifeboat after drifting about for eight days. They were without food and some in a bad way.

A pair of thugs visited the store and restaurant of Long Him at Lundbreck on Wednesday night, where they beat up the proprietor and got away with about \$35 in cash and a quantity of watches, tobacco, cigarettes and other merchandise. The police are investigating.

Rev. N. W. Whitmore has tendered his resignation as pastor of the United church at Olds, which he has held for the past four years. He has accepted a call to the Provost church in the Camrose Presbytery. Mr. Whitmore was former pastor at Pincher Creek.

With a great impetus in building throughout this district, local mills have been unable to keep up with the demand for lumber, and quite a few carloads are being brought in from B.C. points. A bulk of the output of local district mills was absorbed by foothills farmers in the building of granaries.

A man gave the details of his wedding to a newspaper by telephone. When the story appeared, the man took one look and grabbed the telephone in a rage. "What do you mean," he screamed at the editor, "by saying 'The couple will live at the old man's'? I told you we were going to live at the old man's!"

CAPTAIN V. G. BRODEUR, R.C.N. who has been appointed naval attaché to the Canadian Legation at Washington. Captain Brodeur held the post of commanding officer Pacific Coast, with the acting rank of commodore. He is the second senior officer in the Royal Canadian Navy.

## PRAYER USED IN ENGLAND

The following prayer is being used in practically all churches throughout England:

Now the daylight fades away.

For our commonwealth we pray,

Guard our sailors out to sea,

From all danger keep us free.

Bless our airmen in the sky,

Safe as angels may they fly.

Firemen, wardens and police,

Grant Thy strength and inward peace.

Shield our soldiers as they stand

Guarding freedom's native land.

Every nurse and doctor bless

In the hour of toil and stress.

On the railroad be a light

To the engine driver's sight.

May each motor driver feel

Thine own hand upon the wheel,

Guard and guide our King and Queen

Down the days that lie unseen.

To our premier counsel lend;

On Thy strength may he depend.

Near each child as Guardian stand,

Bind the old in slumbers band.

These and all who work and sleep

Mighty God in safety keep. Amen.

## DOMINION TEXTILE PLANTS

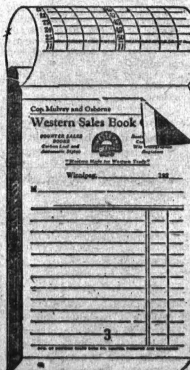

PRODUCE 15,000,000 POUNDS

OF VITAL WAR MATERIALS

Vital war materials totalling fifteen million pounds have been produced by Dominion Textile Company in the first year of the war, the management states. These materials include anti-gas cloth, airplane cloth, camouflage netting, heavy duck for gun covers, and tents, tarpaulin duck and duck for kit bags and bandoliers.

Other lines are khaki flannel and drab flannel, shirting, drill shirting and summer battle dress cloth of three kinds—for troops, air force and officers. Yarns for toques, mitts, underwear and sweaters, as well as tire cord for mechanized equipment and fabric for ground sheets and palliasses are among the articles produced.

## Western Made for Western Trade

Agents  
The Blaimore Enterprise

## THE PASS EIGHTEEN YEARS AGO

(The Blaimore Enterprise, 1922)

Sept. 28.—Owing to falling health, Val Rinaldi was offering for sale a good team of horses, wagon, harness and set of sleighs.

Constable Steve O. Lawson was shot to death while in performance of his duties as Alberta Provincial Police officer at Coleman the early part of this week.

Doc Little's radio on Monday night got into distinct touch with programmes from Havre, Montana; San Francisco, California; Denver, Colorado; Regina, Sask.; Salt Lake City, Utah; Portland, Oregon; Vancouver, Great Falls, Calgary, Tacoma and Seattle.

The family of Mr. and Mrs. Owen Morgan announced the addition of a Ford during the week.

Frank Wheatley was moving his family from Bankhead to Blaimore, born, to Mr. and Mrs. J. B. Harmer, on Monday last, a daughter.

Jack O'Neill returned Saturday from an extended visit to points in Ontario.

Oct. 5.—This week's issue of The Enterprise contained a full account of preliminary proceedings against E. Piccarillo and Mrs. Florence Lasandro in connection with the murder of Constable Lawson, A. P. Police. The hearing took place at the Coleman opera house, with Magistrate J. W. Gresham presiding, and occupied the full time of two days. No defence evidence was submitted. Both were sent up for trial at the criminal assizes.

A meeting of shareholders of the Blaimore Arena Limited was held this week at the Cosmopolitan hotel.

Passenger traffic was so heavy on trains through the Crows' Nest Pass that an appeal was being made to the board of railway commissioners for additional train service.

Conway still insisted that an Irishman died only when an angel was needed in heaven.

Mrs. W. McVey returned this week from an extended visit to the Old Country.

Sidney Sargent returned this week from a several months' visit to his old home in England.

Messrs. W. Turner, C. Smith, W. J. Bartlett and C. Stewart returned from a big-game hunting trip in the North Kootenay Pass.

Sam McVicar, manager of the Palisade Coal Company, was killed when he fell from a tippie thirty feet to the ground. He was a cousin of H. A. McVicar, of Hillcrest.

Constable Thomas Duncan, of the Ekko detachment of the British Columbia Police, has been promoted to the rank of chief constable of the Southeast Kootenay district at Fernie.

## GOD SAVE THE KING

We've often sung God Save the King. And sang it as a prayer—That Thou would'st round our Monarch fling Thine all-protecting care.

And as we've sung that ancient song, The thought was thus implied—That Thou would'st save All who belong To our great Empire wide.

We thank Thee, Thou who givest breath, That Thy great power is such, That Thou didst save from cruel death Our King we love so much. For Thou Deliverer great unseen, Who didst so interpose To shield our Empire's King and Queen, Art mightier than our foes.

By this our faith is steadfast set That Thou wilt Victory bring; And Thou wilt save our Empire yet—For Thou hast saved our King! —Charles F. Lane, Bassano, Alta.

Epicure: "Was this mutton prepared with capers?" Waitress: "I don't know, sir; but the chef's a jitterbug."

## RATHER HIGH UP FOR LEGS

An advertisement reads: Found, pair of glasses, dark brown rims with gold legs.

Political Speaker: "All we need do, my friends, is to keep a working majority."

Voice from the rear: "You're wrong there! What this country needs is a majority working!"

Kindly Clergyman (picking little boy's knee): "And who has nice chubby, pink legs?" Little Boy: "Mamma."

Willie: "Can't you give me another name, mother?"

Mother: "Why?"

Willie: "My teacher is always saying she will keep me after school as sure as my name is Willie."

## Agriculture's Future

The future fortune of agriculture in Western Canada, is a topic which affords wide scope for speculative thought. How is it going to fit into the Canadian, the Empire and world economy for the next few years? The war proves to be a long one, and what trend will it follow to be most useful and valuable after the fight has been won and the world gradually settles down to a more or less permanent stabilization?

These are questions which are being asked by a good many people and which are causing a good deal of searching of brains for answers which may or may not be correct. Various theories are being advanced, some of which may be the key to the future, some of which undoubtedly are not. It is one of these problems to which the old adage, "Hindsight is easier than Foresight" applies with strong impact.

Unfortunately the solution is dimmed by obscurity. We see through a glass darkly when this question is approached. There are so many unknown factors that at present no clear cut answer can be given. The problem bristles with imponderables, and it is this very fact that gives consideration to the question a good deal of glamour for the theorists.

### The Paramount Objective

When this problem is revolved in the mind, however, one thing is immediately clear and definite. It stands out like a beacon light. And that is the playing its full part in the winning of the war as the immediate and imperative objective of Western Canadian agriculture, which means the ample provision of foodstuffs to meet the needs of Great Britain and of those who again become the active Allies of the Empire as and when they are released from the yoke of the oppressor.

That is one of the duties which has been assigned to and cheerfully and gladly accepted by this country. It is the paramount job in hand for Western Canada, for, as has been very appropriately stated as an unquestionable verity—there is no future for Western Canadian agriculture unless Britain and Canada win this war.

Not only must this war be won, but it must be pushed to such an ultimate finality as to preclude the possibility of any recurrence of the invasion of human and national liberties for a hundred years. This objective lengthens the period of service which Western Canada can render the twin causes of humanity and democracy.

It is conceded that at the moment the problem of the storage and disposition of a big wheat surplus appears to be an acute one, but it is one which will be dispensed as the war runs the course which has been mapped out for it, and the time will come when every bushel of this apparently huge surplus will be required.

Vast stores of foodstuffs which had been warehoused in Britain from other available sources will disappear and have to be replaced, to feed the civilian population as well as the fighting forces. When the war is transferred to continental Europe and British troops press towards Berlin, it will become Canada's responsibility to feed the troops of Allied countries as well as their civilians and the number of these Canadian wards may be expected to increase with rapidly after the offensive gets well under way.

Even after the war is over and peace terms are imposed on the enemy it is reasonable to expect that there will be great need on continental Europe for large quantities of Canadian agricultural produce, and perhaps for some considerable time. In many of the countries now under Hitler's heel, agriculture has been stripped and ruined, and further enemy devastation may be expected as the goose-stepping hordes fall back to their own country. Fields have been laid waste, livestock decimated and labor conscripted and more of this kind of thing may be expected while the enemy is in retreat.

The only thing that will prevent further serious damage to agriculture in Nazi-held continental Europe will be sudden, wholesale collapse of the German arms, and it is possible that this may be brought about by the predicament of European agriculture itself, combined with successful blockade and incessant pounding by the R.A.F. Even in that event it will be some time before agriculture can be fully reinstated in the Nazi-conquered countries.

### When It's All Over

When the war is happily won and when the Nazi-conquered nations are once again able to fend for themselves in greater or less degree, then, perhaps Western Canada will face the necessity of making some changes in its agricultural economy.

It is not amiss to give some thought to the future and to provide for some insurance policy against that day as and when circumstances and conditions permit and provided that it is not allowed to impede the first and major objective.

If some of the lost markets will never be returned, it may be that in future, greater diversification will be the answer to the question which will then arise. It may be necessary to provide for more domestic markets for more diverse agricultural products and perhaps the solution of domestic markets will lie in greater industrialization of the west. That may necessitate greater development of power from billions of tons of lignite in southern Saskatchewan, from the oil fields of southern Alberta and the waters north of the prairies. Means may be found to produce power cheaply enough to more than offset the freight cost of sending raw materials east and bringing them back in manufactured form, as for instance, hides and shoes.

### Seems Characteristic

"Hitler cannot conquer Britain." The statement is similar to that made by Lord Chatham in the House of Lords during the American war of revolution when he said "My Lords you cannot conquer America . . . If I were an American as I am an Englishman I would never lay down my arms, never, never, never." The thing seems to be a sort of Anglo-Saxon characteristic.

An individual is not intoxicated by alcohol until it courses through his blood stream and reaches the brain.

## FEMALE PAIN

Women who suffer painful, irregular periods with nervous, mood spells due to functional causes should find Lydia's Pinkettes. Vegetable Compound simply marvelous to relieve and cure. Lydia's Pinkettes Compound is made especially to help women and is so gentle that it can be taken even when a woman has rapid changing moods. WELL WORTH TRYING.

### British People Work Hard

Keep Devoting Ways To Raise Funds For More Planes

There is apparently nothing Britons won't do to keep money flowing into the many "Spitfire Funds" that have sprung up to buy fighter planes for the Royal Air Force.

Here are some of the things they have done:  
A woman in Northern Ireland presented two goats to the organizers of one fund. They were sold at auction and brought nearly £50 (\$222.50). Other gifts included a gander, a pedigree Ayshire cow, a greyhound and a donkey.

Based largely on shilling contributions, the fund reached £30,000 (\$135,000) in 11 days—enough to buy a plane for each of the counties in Northern Ireland. An entire squadron is now to be raised.

Housewives of Hendon, birthplace of British aviation, arranged for 1,000 tea parties to raise £20,000 (\$89,000). A group of persons who saved postage by delivering letters by hand contributed £20 (\$89) to a fund.

The proprietor of a fish and chip restaurant gave to the Hendon fund the whole of his midday taking for one week. Shopkeepers in one area are giving the profits on the sale of shilling serial battle jigsaw puzzles. Prize bulldog called Spitfire was sold in behalf of another fund.

Lester Hosiery Manufacturers Association raised £5,000 (\$22,500) to buy one machine. The National Federation of Hosiery Manufacturers Association announced a national fund in connection with the industry and within 24 hours the Hinkley Hosiery Manufacturers' Association raised £500 (\$2,250).

Within 30 hours of a meeting members of the Wholesale Fashion Trades Association more than £5,000 (\$22,500) was raised—enough for one plane and something towards a second.

### Vigilance Needed

Forest Fire Prevention Will Aid Our War Effort

Vigilance against forest fires can help win the war, according to the Dominion Forest Service, Department of Mines and Resources, Ottawa, which reports that approximately 80 per cent of forest fires in Canada are started by human agencies. In an average year more than two million acres of forest land are burned over in Canada, destroying the resources of a great primary industry which has assumed even greater importance during the present war.

During the present conflict the export of Canadian wood pulp, paper, and other wood products to the United States is providing a large amount of foreign exchange which is being used for the purchase of essential war supplies. As the United Kingdom has been cut off from its former sources of wood supply in northern Europe, Canada is now filling the breach with the products from her forests, not only for normal use but also for specialized lines connected with Empire defence. In addition, Canada's own war effort is calling for vast quantities of lumber, which are being readily obtained from her forests. The ability of Canada's forests to meet these demands is of extreme strategic value at present, and protection of the forest resources at this time against destructive fires provides an excellent opportunity for the exercise of patriotism.

### Training Schools

Four New Centres Opened In Western Canada

Opening of instruction at four new training centres in western Canada will bring the total number of schools now in operation in the dominion to 33, the Royal Canadian Air Force announced.

Students from elementary flying training schools reported for training at No. 4 service flying training school at Saskatoon, before the official opening of the school, while No. 3 air observers' school at Regina and No. 2 wireless school at Calgary will also become working parts of the British Commonwealth Air Training plan.

Also at Calgary No. 11 equipment depot, a storehouse of aviation supplies and equipment for all R.C.A.F. training centres in that area, will be open. By the end of 1940, a total of 48 training schools will be in operation.

A mysterious Johannesburg donor has sent three gifts of a million cigarettes each to British fighting forces. Each packet contains card "Greetings from Gertrude."

Nearly 50 steels and trons, each having a different chemical composition, are included in the stainless steel family.

### Great Aid To Aviation

Balloons Used To Collect Data For Safe Operation

Carriers for the first pamphlet raids on Germany started from Canada during the first Great War. At this time the leaflets travelled in small rubber balloons which were inflated with hydrogen and when the wind was right were released where they would float over German territory. There they would rise to great heights, says an article in the August issue of C-I-L: Oval, until they burst and let the leaflets flutter down to be read by curious Germans over wide areas.

Like worthy old soldiers, these Canadian-made balloons have passed on to these early dawn observers and have been promoted to new important work. To-day they explore the weather of the upper air for the benefit of their mighty winged successors. They chart safe airways for civil flyers, set targets, sharpen the sting of fighting fighters and anti-aircraft gunners.

Each day these useful indicators are released from weather stations and airports across Canada to determine the height of clouds, the ceiling to the air force and civil flyer, wind direction, velocity and other data important to the safe and efficient operation of air transportation and weather prediction.

### Education Week

Dominion-Wide Movement To Foster Interest In School Problems  
Education Week has been observed for several years in Canada. This year it is held in the week of November 10 to 16.

The general theme is "Education for Defense, Democracy and Peace." On Sunday, November 10, the churches lead off with discussion of "The Three-Fold Partnership—the Home, the Church, the School." Other topics are: Nov. 11, "Inculturing Civic Loyalties"; Nov. 12, "Financing Public Education"; Nov. 13, "Developing Human Resources"; Nov. 15, "Changing Methods of School Administration"; Nov. 16, "Building School Security."

During the week there will be broadcasts, both Dominion and local. Clubs of all kinds will have speakers discuss educational topics and problems, while many centres will hold public meetings with appropriate programmes. Teachers and students will be hosts to parents and citizens that the latter may see just what is being attempted in the modern school, as well as what remains to be done.

### SELECTED RECIPES

#### BUTTERSCOTCH TARTS

1 cup brown sugar  
3 tablespoons Durham Corn Starch  
1/2 teaspoon salt  
2 cups hot milk  
2 eggs  
1 teaspoon pure vanilla  
8 tablespoons soft butter  
Baked tart shells  
Whipped cream and nuts  
(optional)

Combine brown sugar thoroughly with corn starch and salt. Slowly stir in hot milk. Stir and cook in double boiler until mixture has thickened smoothly. Cover and cook, with occasional stirring, until no raw flavor remains. Stir into the slightly-beaten eggs, return to double boiler and stir until eggs have thickened. Remove from heat and add vanilla; stir in butter, bit by bit. Cool partially, then turn into baked tart shells and chill for serving. May be topped with whipped cream and nuts.

#### PRUNE WALNUT PUDDING

1 cup cooked prune pulp  
1/2 cup prune juice  
1 cup boiling water  
1/4 cup sugar  
1/4 teaspoon salt  
1/4 teaspoon cinnamon  
18 Christie's Lemon Wafers  
1/2 cup chopped walnut meats  
2 eggs whites  
Combine prune pulp and juice, add boiling water, sugar, salt and cinnamon. Bring to boiling point and add finely crumbled wafers and nut meats and stir. Beat egg whites stiff and fold hot mixture into them. Pour mixture in mold and place in refrigerator to set. Serve with whipped cream. Six portions.

#### No Neutrality In This Struggle

"I declare that for me neutrality of heart is impossible in this struggle. I see it as a great struggle between light and darkness. Whatever be the details of controversy between contending nations, fundamentally this fight is for the things of the spirit, not for material gain, not for strips of territory." — Cardinal Hinsley Archbishop of Westminster.

#### Responsible Canada

A British Columbia gardener has sown paprika a valuable crop, several districts in Ontario are specializing in broom corn, and for the first time mustard seed is being produced in Nova Scotia. The mustard which has come regularly from England is now banned for the duration.

### For Testing Aircraft Models

Large Wind Tunnel Will Take Wing Span Of Eleven Feet

One of the largest and most complete wind tunnels in the world is now being built by the Lockheed Aircraft Corporation, manufacturer of the 15 planes in the Trans-Canada Air Lines fleet and the six larger ones recently ordered. The tunnel will be about 400 feet long and capable of testing models with a wing span of 11 feet. All will be forced through the tunnel at a maximum speed of 260 miles an hour.

Wind tunnel models of aircraft are made to exact scale and the flow of air about them is exhaustively studied with the object in view of producing planes offering minimum resistance and obtaining maximum lift and control from the air.

### Museum Treasures Safe

Were Removed From Buildings In London Over Year Ago

Officials said the priceless treasures of two famous but unnamed museums bombed recently by the Germans, had been moved along with the contents of other galleries, to specially constructed repositories in August, 1939.

"There has been no damage to any or them. They are secure from any bomb," officials said.

The same precautions were taken with the contents of scores of private galleries, warehouses and antique shops.

## BOMBING HAS FAILED TO SHAKE BRITISH MORALE

London.—With the London blitzkrieg two weeks old, half a dozen significant facts are beginning to stand out:

1. The people of London have their chin up and are just as determined as ever to take anything the Luftwaffe can toss their way without flinching.
2. There has been severe damage in some parts of London, particularly in the east and southeast, but it is actually slight when the size of the vast, sprawling metropolis is taken into consideration.
3. Damage to the war industry of the nation is negligible and production of aircraft has actually increased during the fortnight. The same is true of the air defences of the nation, which, relatively speaking, have not been touched.
4. There has been some damage to food stocks but it is estimated to represent no more than one meal for the whole nation. A large percentage of this damage was done in the London dock area.
5. Transportation in many parts of London has been interrupted but this has been more of an inconvenience to the general public than to anything else. You can still travel anywhere in London but it takes longer and there are more detours and transfers involved. The blitzkrieg has not prevented 22,000,000 tons of coal being stored throughout the country as a reserve to meet the demands of industry, public utilities and domestic users in the winter.
6. The civil defences of London and industrial salvage squads have done remarkable work not only in fighting fires and rendering first aid but in repairing streets, water mains and gas mains and restoring factories to their full productive capacity in the shortest possible time.

I have talked with many Londoners and found a growing demand among the public for retaliatory raids on Berlin.

"Let's give Berlin a dose of the medicine the Jerries are giving us," I was told by a man married less than three weeks whose new home had been demolished earlier in the week.

In face of this growing demand to bomb the capital, the Reich as London has been bombed, the government continues to base its general bombing policy on military considerations. The fact that few raids have been made on Berlin and that they have been confined to military targets is because the British government considers it better strategy to concentrate the bombing fleet on Hitler's invasion armada as long as it threatens this country.

To realize the Prime Minister Churchill it is better tactics for Britain and a speedier and surer method of winning the war to disrupt Hitler's invasion plans than to level a few homes and buildings and blow up a few streets in Berlin.

At present the government has no intention of compelling the evacuation of sections of London. Thousands of people moved away from some of the worst bombed parts of the crowded east end but they went voluntarily. If the blitzkrieg continues indefinitely and if London gets a steady pounding, it may be necessary to force people to leave the city but there has been no indication of this so far.

The government has started expropriating homes away from the danger areas as temporary accommodation for people whose houses have been demolished. In addition, communal feeding centres have been established.

The government has established a special committee to inquire into public health as a result of the bombings. It will pay particular attention to the results of people crowding into raid shelters each night but also will study such subjects as the heating of shelters, installation of amenities and dangers likely to arise from punctured sewers.

**Radio Station Bombed**

New York.—The London office of the "Columbia Broadcasting System" has been partially wrecked by German bombs, Edward R. Murrow, chief of the C.B.S. European Staff, said in a broadcast from London heard here.

**No Class Distinction**

Montreal.—The war has brought out the best in the English people, Lady Mayo-Robson of London told a women's club here. "No longer is there any class distinction. Everything has lost its value," she said.

## Blizzards Of Bombs

Germany Has Failed To Achieve Purpose Of Air Raids

London.—Military attaches and correspondents who experienced the blizzards of bombs which fell on Warsaw, Barcelona and Madrid expressed belief that London already has taken more punishment than any other city, even Rotterdam, in the past 11 days of intensive German air attacks.

Despite these attacks these experienced observers believed that the German Luftwaffe "has failed to achieve the raids' two main purposes and that the prospects of invasion are diminished because of this failure."

The two prime objectives they gave as: 1, disorganization of London's communications so that supplies and reinforcements could not be sent to the areas where invasion is planned, and 2, demoralization of the civilian population.

Other bombed cities with London, one British correspondent known as "the world's most bombed man," said: "Rotterdam caught a packet, but it was all in one section. If you could fit London's bombed areas into a section of the same size, the ruin and damage would be far greater than Rotterdam's."

Effects of Germany's air attack on Britain were debated in a secret session of the House of Commons.

## Joint Defence Measures

Says Canada May Be Committed To Defend U.S.

Toronto.—The Canadian-American agreement to study joint defence measures will commit the United States to co-operate in the defence of Canada, but it will also "commit Canada to defend the United States," John MacCormac, Ottawa-born Washington correspondent of the New York Times, told a luncheon audience.

Speaking before the Canadian Club, he raised the possibility of the United States at war with Japan. The U.S. now would have bases available in Canada not only for the defence of Canada, but for attack on any fleet which should threaten the United States.

"Therefore, it would seem in certain contingencies Canada would automatically become a participant in any American war and the choice of neutrality would not be open to it."

"Would Canada's obligation (to a United States at war) also commit the rest of the British empire? Well, Great Britain it seems is pretty well committed by the leasing of her own and foreign bases. I should not be at all surprised next year to see a defence understanding between the United States and Australia and New Zealand."

## Would Aid Britain

American Urges That More Boats Be Sent To England

Chicago.—Admiral William H. Standley, United States navy, retired, advocated that the United States "provide an adequate number" of "mosquito boats" to Great Britain to "forestall any menace the U.S. boat of Germany may be in the Atlantic."

Admiral Standley, Dorothy Thompson, columnist; Douglas Fairbanks, Jr., actor, and Maury Maverick, mayor of San Antonio, Tex., and four congressmen, spoke before a meeting sponsored by the Chicago chapter of the committee to defend America by aiding the allies.

The naval officer urged that the United States follow up its recent action of trading 50 destroyers to Great Britain for naval and air bases in British possessions in the western Atlantic by dispatching effective anti-submarine craft to Britain.

## Eagle Squadron

American Flyers Volunteer To Fight For Britain

London.—Air Minister Sir Archibald Sinclair announced Col. Charles Sweeney, United States veteran of the Great War Lafayette escadrille, was organizing an "Eagle squadron" which will be composed of American flyers who volunteer to fight for Britain.

The squadron, the minister told a luncheon gathering, will be similar to the Lafayette escadrille which Sweeney helped organize during the last war before United States participation in the conflict.

**Serum Being Shipped**

Toronto.—Fifty thousand packages of anti-tetanus serum for prevention of lockjaw among victims of air raids in Britain will be shipped from Canada immediately, it was announced from national headquarters of the Canadian Red Cross.

## Dud German Bombs

Made In Czechoslovakia And Filled With Sand

Victoria.—Dud bombs dropped by German raiders over England have been made in Nazi-occupied Czechoslovakia, according to word received by a Victorian from a relative in Northampton.

The Victorian, who wished to remain anonymous, said the letter described a bomb that fell at Northampton and failed to explode. It was roped off for a week, then examined and found to bear a stamp showing it had been made in Czechoslovakia. It proved to be filled with sand instead of an explosive.

## Floods In France

Rains Are Causing Heavy Damage In The Savoy Region

Vichy, France.—Roadsides are being swept away and mountain villages isolated by devastating floods over a 500-square mile area of the Savoy region of France.

Unusually heavy rains are sending torrents of water down river beds that are generally dry. The damage is already estimated at 20,000,000 francs.

## BRITISH AIRMEN HAVE WIDE EDGE OVER THE NAZIS

London.—Germany has lost 1,867 airplanes against 621 lost by the British since the German aerial blitzkrieg began on August 8, Air Minister Sir Archibald Sinclair said.

"The German loss of air crews has been nearly 4,000 while ours are less than 600," Sinclair said. "During air fighting in the Middle East during the same period the Royal Air Force lost 15 aircraft and destroyed 56 Italian airplanes."

The loss of 621 British planes to which Sinclair referred occurred over Britain, France, the Low countries and Germany. He said that the German air force, unable to destroy the Royal Air Force or sink the British Navy, was reaching behind the backs of the fighting forces in an effort to break the spirit of the workers and terrorize London.

Citing damage inflicted on the German air force by the British, Sinclair said:

"Those were sound, reasonable grounds for the faith which I do not doubt was in the R.A.F. and those clean, strong young pilots fighting every day and through hours of darkness in a crusade for freedom and right against murderous brutal Nazi tyrants."

He said the fall in German aircraft production as a result of R.A.F. bombings could be placed as high as 30 per cent, "while lack of sleep affected the morale of German workers."

Germany, he conceded, is superior in number of machines and in the shorter distances her men must fly, but Britain is confident of "beating the enemy because our machines are much better and our men are much better."

He disclosed assembly of pieces of a bomb which blew a big crater in Kent airbase showed the bomb had "probably been taken from one of our dumps in France."

## READY FOR ACTION IN EASTERN CANADA

The camera catches an anti-aircraft crew in action during a practice drill at one of the guns of the battery, many of which are strategically placed along the East coast. This business-like 3.7 gun can fire a death-dealing shell every five seconds.—Canadian Official Photograph. Passed by Cenator.

A. R. MOSEY

Who has been elected President of the new Canadian Congress of Labor. He has been President of the Canadian Brotherhood of Railway Employees and Transport Workers for 32 years.

## Support For De Gaulle

Increasing Number Of Frenchmen Would Help To Free France

London.—A Reuters news agency despatch from the Spanish-French frontier reported that increasing numbers of Frenchmen in unoccupied France are supporting Gen. Charles De Gaulle's fight for "Free France" at Britain's side.

The Reuters despatch said that an Englishman who escaped into Spain from southern France reported that De Gaulle's followers are "greatly increasing" in the unoccupied territory.

"The De Gaulleists among whom are many soldiers, hold regular secret meetings in Marseille and other towns," the Englishman was quoted as saying.

"Food conditions in unoccupied France are nearing the starvation point," he added.

"Potatoes are unobtainable as the Germans have removed the whole potato crop."

Efforts to transport foodstuffs and other supplies are meeting with sabotage efforts and many Germans are moving into Paris to escape British aerial bombardments of western Germany," the Englishman said.

## Secret Tank Weapon

British Tanks Now Held To Be Superior To Nazis

London.—The men directing British defence are now giving the armored forces consideration second only to that devoted to the Air Force. It is now hinted that Britain may be hiding a secret tank or a secret tank weapon.

"There can be little doubt we shall, when the times comes, deploy the armored forces which will make the German wonder," a military informant said. "The Germans always have followed us in design, and there can be no question that we are ahead of them now. And it is firmly believed that we shall be still more ahead of them when we come to hit them hard."

This informant said that British tanks now had superior armor, developed since the Germans started strengthening their tank armor.

"We had a small force of tanks in France with armor that proved immune against any German anti-tank guns," the informant disclosed. "They also carried a gun which could penetrate German armor."

## Build New Camps

Two New Internment Camps Will Be Constructed

Ottawa.—Two new internment camps will be built to replace one in northwestern Ontario from which two escapes have been made, Defence Minister J. L. Ralston announced.

The minister told a press conference recommendations for precautions against escape and means of identification of prisoners had been made by a special board under Col. P. A. Pluse, officer commanding the Canadian provost corps. These recommendations had been accepted and were being implemented and staffs at camps will be increased.

A prisoner who escaped from a jail near Toronto and was later captured near Burlington, had been out with a working party and simply slipped away, the minister said. The camp there was manned by a guard, "better than which I have never seen."

## Restrictions Lifted

American Citizens Will Complete Naturalization, Will Get Papers

Ottawa.—The general restrictions placed upon issue of naturalization papers earlier in the summer as a war precaution have been lifted as far as applications from American citizens are concerned, it was learned.

A number of applications for naturalization pending in the secretary of state's department were put aside several months ago, while study was made into the risks of citizenship papers falling into the hands of subversive elements likely to sabotage the war effort.

The present relaxation applies only to American citizens resident in Canada who have virtually completed naturalization.

Applications of this kind will be put through now, when they are in order.

## DEFENCE JOB FOR CANADIAN UNIT IN BRITISH ISLES

Somewhere in England.—Lt.-Gen. A. G. L. McNaughton, commander of the army corps which includes the Canadian 2nd Division, told newsmen that the Canadian troops now "have a positive job of defence but we are also building a sound instrument for offence."

Gen. McNaughton accompanied Maj.-Gen. the Duke of Gloucester on a tour of the advance defensive area in which he inspected a Canadian machine-gun unit from Saskatchewan. Silences waited an alert and dog-fights raged in the sky as the inspection proceeded.

The Canadian unit, lined up in a quadrangle, presented arms and buglers sounded the royal salute as the duke, Gen. McNaughton and senior staff officers of his corps appeared.

The duke passed along the ranks pausing to chat occasionally with the men. His inspection followed one of Gen. McNaughton's periodic conferences with newsmen in which he discussed the activities of the Canadian troops.

Gen. McNaughton said the Germans are losing their advantage and Britain is growing stronger in manpower, as each day passes. He said industry had grappled successfully with the tremendous problem of accelerating supplies and that "every day we feel we are in a better situation than ever before."

"We are not losing sight of the importance of carrying the war abroad," Gen. McNaughton said. "At the moment we have a positive job of defence but we are also building a sound instrument for offence."

He declared the Canadian 2nd Division, in training in Britain under Maj.-Gen. Victor Odium, is "coming along splendidly."

The people of Canada no doubt were anxious to establish an all-Canadian corps as soon as possible, he said, but on the other hand, the G.O.C. was anxious that the 2nd Division should have ample opportunity to complete its training which is following a specified schedule.

Among special tasks undertaken by Canadian engineers the most important was construction work to relieve possible congestion.

"Even if the enemy attempted to bomb our roads we shall have ways of getting around them," he said.

The group of reporters visited a mobile operating laundry and a light anti-aircraft battery manned by a crew from western Canada. The commanding officer is Major C. R. McCullagh, Saskatoon.

## CANADA MUST BE PREPARED FOR A LONG WAR

Ottawa.—Even though Britain is successfully holding out against the common foe, there is "every proof" that Canada is in danger and each man must be trained and prepared to defend this country, Hon. J. G. Gardiner, minister of national war services, said.

The compulsory military training plan, under which single young men will be given 30 days' training, is set up to do that, he told the nation, speaking over the national network of the Canadian Broadcasting Corporation.

"The quickest way to establish a nucleus of persons in every community who know what to do (in case of attack) is to start this training plan by taking young men from every community, give them training and send them back to their previous employment to form that nucleus," Mr. Gardiner said. "The training camps will open Oct. 9."

The minister outlined in simple detail the way in which men were to be called, medically examined and, if fit, called up for their camp training period.

Canada was engaged in what appeared to be "a long and hard war," the minister said, a war of nations, not only armies, of one people against another.

"Germany and Italy have set the pace in this regard and there is nothing for us to do but to accept and meet the challenge by devoting all our united efforts to win peace through victory," he said. If any added proof were needed that Canada was prepared to go "all out for victory" it was to be found in the way all parts of the country responded to national registration.

"Canada must make sure that Great Britain shall win. Canada must be certain that no invader can set foot on Canadian soil and remain alive."

"Without going into details as to how, I think everyone will now agree that Canada could be attacked from Europe. As long as the British navy holds the seas there is only one way we could be attacked and that is from the air. If we are ever attacked from the air, the flyers will come either from Asia to the northwest, from Europe over the North pole or from Europe over the Atlantic."

"A few months ago it would have been comparatively easy for lone bombers to arrive in Canada and destroy valuable plants and storage. To-day that would not be so easy but it is still possible. We must make it more and more difficult."

The minister emphasized that the jobs of those found physically fit and then called for actual training would be kept for them as the regulations provide stiff penalties for employers who failed to comply.

Mr. Gardiner reiterated that it was not the intention to excuse anyone from training who was fit. In some cases postponement might be allowed, but the training had to be taken within 12 months of call even then.

## Use New Method

Britain Has Secret Gadget For Bringing Down Nazi Planes

London.—Britain is experimenting with a new method of bringing down German aircraft which already has proved successful in defending small vital areas. It is understood it has not yet been used in the London barrage.

For security reasons the nature of the device cannot be disclosed but it is not a gun or a ray and has nothing to do with balloons.

If it can be developed it will add great strength to general defences of the country. One of its advantages is that it is comparatively cheap and easy to manufacture. Another is that it does not require a large force of men to operate because of its simple principles.

## Was Famous Showman

Glogow.—The death of Edward H. Bostock, 81, noted circus man, was announced. Known as the "Barnum of Britain," he retired in 1931, selling his menagerie to the London Zoological Society. His family had started in the business in 1805.

## Paderewski For U.S.

Lausanne, Switzerland.—Ignace Jan Paderewski, 80-year-old pianist and former premier of Poland, awaits permission to cross unoccupied France and Spain en route to the United States, where he had been hoped to spend the rest of his life.

Workers at Trail voted down a strike proposal.

The United States has 38,440 organized playgrounds for the safety of children.

Throughout the Dominion daylight-saving time will give place to standard time on Sunday next, September 29th.

For giving a false answer to a question on the National registration card, Harry Robert Saladano was at Cardston given three months in jail.

This advertisement appeared in a Saskatchewan paper: "FOR SALE—Diamond Engagement Ring, cash or terms. Free with this offer, 'How to Understand Women' in 3,000 easy lessons. Apply to Box 13."

Samuel Young died recently in Toronto at the ripe age of 95 years. He was a native of Twillingate, Newfoundland, and had been a subscriber and reader of the St. John's Evening Telegram ever since it was established 64 years ago.

Joe Pietraszek, of Atholmer, has secured employment at the coast.

Many a fapper now has to sing: "Where is my wandering mom tonight?"

It won't be long now. Hitler is really planning on taking over Italy from Dud Mussolini.

If you think the lily belongs to the onion family, you're a pessimist. If you think the onion belongs to the lily family, you're an optimist.

Thirty-one years ago, the telephone number now used by The Blairmore Enterprise was used by The Frank Paper, later purchased by the present owner of The Enterprise.

Rev. Father Francis Hughes, former parish priest at Nanton, Stavelly, Clareholm and Granum, died in Montreal on Wednesday of last week. Father Hughes retired in 1936 to live in Montreal.

Hitler is said to be planning a holiday trip to Canada at the conclusion of his murder campaign, and intends to visit Jasper to see if any face resembling his appears on the famous Indian totem pole. The Indians say: "We hope not!"

## Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Canada's war loan, as usual, went well over the top.

Mrs. M. Rossi, of Vancouver, is planning to visit Blairmore shortly.

Jews were noted among the heaviest subscribers to a spitfire fund in Newfoundland.

The Church of Jesus Christ of Latter Day Saints subscribed \$5,000 to Canada's war loan.

Mr. W. H. Chappell, who recently came out of hospital, is resting at his home for a few days.

The new R.C.M.P. highway patrol car arrived the early part of the week and is now in operation.

A search for brains in the heads of dictators is to be instituted shortly. Most experts feel that their brain box is not so high up.

A most successful whist drive and social was held at Frank on Friday night last, when a neat sum was realized for the Red Cross.

Thirty-one years ago, a quarterly dividend was being paid out to shareholders of the International Coal & Coke Company at Coleman.

Hon. E. G. Power, minister of national defence for the air, will be in Calgary on Friday next, when he will address a meeting of the Canadian Clubs at the Palliser hotel.

On Wednesday, September 18, following a Nazi bombing practice, a cable was received at the Salvation Army territorial headquarters, stating: "Ninety windows of Red Shield Leave Hotel in London gone. No other damage. All safe and well. Inform relatives."

Thirty-one years ago, at the Frank village elections, A. V. Lang, Reuben Steeves and Dr. Malcolmson were elected councillors. Councillors elected at Coleman were Alex, Cameron, Frank Graham and E. Holmes; and at Blairmore, T. Frayer, H. E. Lyon and L. Dutil. Joe Little, as nominee, could not qualify, as his property was outside the village limits.

High water in York Creek over the week end did some damage to the buffer dam being used while repairs were being effected to the town's reservoir. For several days water from the main river was pumped into the main, during which time it was necessary that water for drinking purposes should be boiled. However, the all-clear signal was posted Wednesday morning and the water is now reported o.k.

A Norwegian transient, Harry Hamanson, accompanied by a companion, Thomas McKillop, undertook to display Nazi salutes on the street in Hanna. They also shouted "Heil Hitler!" They were immediately placed under arrest, and the former was sentenced to serve six months in Lethbridge jail, with a recommendation that following the jail period he be interned for the duration and after the war be deported. McKillop was dismissed, but was given a fifteen-day term on a vagrancy charge.

Dick Old has been making a real business this year of constructing ordinary bamboo poles by sections to make them 25 to 30 feet in length. A couple of weeks ago we happened to notice a local fisherman using one of these poles in the Gap. He had located himself comfortably on a rock above the water's edge on one side of the river, then cast his hooks. He admitted having caught no fish, or not even getting a bite. Then we noticed that his hooks were resting in the gravel above the water's edge on the other side. He had been there waiting for a bite for three-quarters of an hour, and finally made up to the other hand to help himself to a sandwich. Really, the way of a fisherman is hard!

Because of British action, Hamburg is to be re-named Hamburger.

Welsh and McNeill say that to have a real family you must have a trellis.

A mangel beet, grown at Harry Boulton's ranch, near Coleman, weighed twelve and a half pounds.

Drumheller's liquor store is being kept open till midnight in the hope of combating illicit liquor sales.

A diet of fish may or may not stimulate the brain, but going fishing certainly stimulates the imagination.

Missing for several days, Frances Hart, 12, of Coleman, was found at the home of her uncle in Lethbridge.

Miss Freda Antrobus, A.T.C.M., of Coleman, leaves this week for Toronto to enter the Toronto Conservatory of Music.

A banana was found under the leaves of a strawberry bush in West Blairmore on Saturday night. The finder wasn't dizzy either.

The Imogene, largest of the Newfoundland sealing fleet, is ashore on the coast of Nova Scotia. Her crew of 28 were rescued, all but one.

A Lions International Club has been organized at Coleman by Mr. C. P. Manion. While in the district, Mr. and Mrs. Manion were guests at the Greenhill hotel.

Paul Chardon sustained injuries to his chest and ribs when he fell on the basement steps at his home on Saturday night. He has since been confined to his bed or living room.

Roy Whitehouse, alias Roy Savage, sentenced to hang September 25th for the murder of W. A. Ingram, Fernie storekeeper, last May, has been granted a reprieve of one month, pending hearing of an appeal at Victoria.

Mrs. Vera Brown, of Crossfield, is taking over the beauty parlor at the Cosmopolitan hotel on October 1st. Mrs. John James (nee Eva Erikson) who has operated the parlor for several years, is moving to Coleman with her husband to reside.

The kidnapper of three-year-old Marc de Tristram was captured on Sunday, and the child returned unharmed to his home at Hillsborough, California. The kidnapper was a German giving the name Wilhelm Jakob Mullenbroich, aged 40. The child was being held for \$100,000 ransom.

J. A. McDonald, proprietor of the Empire hotel, left Coleman Monday morning for Edmonton, accompanied by his two daughters and Joe Misson (Blairmore). The Misses McDonald will enter college in the capital city. McDonald and Misson will continue on to visit old friends in the mining region southwest of Edmonton, and expect to return to Coleman this evening.

Arthur W. Reeves, M.A., the new superintendent of the Pincher Creek School Division No. 29, obtained his public school education in British Columbia and Nova Scotia, and his high school education in Loughheed and Edmonton. He took his normal training at Camrose. In 1939 he obtained his master of arts degree from the University of Chicago, and was awarded a scholarship.

New regulations have been passed by the provincial highway traffic board dealing with trailers, requiring they must be equipped with proper braking mechanism. The regulation applies to all trailers having a carrying capacity of 5,000 pounds in accordance with tire equipment. And semi-trailers must be equipped with adequate braking mechanism under the control of the operator. The order does not apply to two-wheel trailers used without a platform.

A musical critic says that a saxophone is an ill wind that nobody blows good.

A. B. Trites has invested \$130,000 in the Surrey dyke district near New Westminster, B.C.

Mr. and Mrs. Don E. Lewis, of Lethbridge, were motor-visitors to Blairmore on Tuesday.

Mrs. Frank Rhodes, of Langley Prairie, B.C., former resident of The Pass, spent a few days visiting with friends at Coleman.

L. B. Fordham, one time an officer with the R.C.M.P. at Blairmore and Pincher Creek, is now an officer with the Royal Air Force in England.

Michele Perri, one of Fernie's pioneers, passed away on Thursday of last week, aged 86 years. He is survived by three sons and two daughters.

Twenty-five years ago, Mr. J. H. Farmer received a letter from J. Menard, late assistant general manager of the West Canadian Collieries Ltd., Blairmore, stating that he had received the Distinguished Conduct Medal from the Prince of Connaught when at Neuve Chappelle and Ypres early in July.

Henry Johnson, father of Mrs. J. Alex. Cameron, passed away at Macleod on Tuesday morning, aged 74. He was an early settler in the Stavelly district. At the age of 14 he came to the United States from Norway. In 1893 he married Miss Liva Lucken at Osian. In 1904 they moved to Stavelly, where they homesteaded.
